

National Electric Power Regulatory Authority (NEPRA)

Second Addendum to Notice of Admission Pertaining to Application of Premier Industrial Chemical Manufacturing Company (Private) Limited for grant of Generation Licence

The subject application of Premier Industrial Chemical Manufacturing Company (Private) Limited (PICMPL) is being processed. In its application, PICMPL had envisaged setting up an imported coal/rice husk based thermal generation facility to be located at 8-KM Lahore-Sheikhupura Road, Sheikhupura in the province of Punjab.

2. Initially, PICMPL planned supplying surplus electric power to Anmol Textile Mills Limited (ATML) located at Okara through wheeling using network/distribution system of LESCO. A notice in this regard seeking comments of stakeholders was published in the press (the "daily Nawa-i-waqt" and "the News") on August 26, 2016.

3. Later, PICMPL changed its plan and decided to supply to Ghani Value Glass Limited and Zee.T International located adjacent to it. Accordingly, the Authority acceded to the request and decided seeking fresh comments of stakeholders for which an addendum was published in the newspapers (the "daily Dunya" and "the News") on March 18, 2017.

4. Now, the company has again informed that in view of revised parameters of the project it has decided not to use imported/local coal instead utilize biomass as a fuel for the project. The Authority has considered the submission and decided to seek fresh comments of stakeholders.

5. Accordingly, all the stakeholders, interested/affected persons and the general public are invited to submit their comments afresh in favor or against the submission of PICMPL for grant of generation licence. The comments should be submitted to Registrar NEPRA within a period of fourteen (14) days from the date of this publication.
