

LIST OF ISSUES IN THE MATTER OF PUBLIC HEARING REGARDING REVISED REQUEST OF K-ELECTRIC TO ALLOW OPEN COMPETITIVE BIDDING FOR RFP DOCUMENTS - DEVELOPMENT OF 200 MW SITE NEUTRAL HYBRID PROJECT AT DHABEJI UNDER NCBTR-2017.

- i. Whether the proposed open competitive bidding is justified and can be allowed under NEPRA Competitive Bidding Tariff (Approval Procedure) Regulations, 2017?
- ii. What would be the mechanism for assessment and approval of prudent tariff for the project after processing the project under open competitive bidding?
- iii. What is the rationale for selection of hybrid project? Whether K-Electric has carried out any studies/analysis in this regard and/or whether the basis for selection of 75%:25% criteria for Wind: Solar hybrid solution is justified?
- iv. What are the synergies as a result of hybrid solution that could lead to lower cost?
- v. Whether the proposal of K-Electric to hold up to 49% equity share in the SPV is prudent/acceptable under the prevailing applicable laws?
- vi. Whether it is justified to evaluate the bids based on combined generation and transmission tariff?
- vii. Whether the prequalification of the bidder has been followed by K-Electric as per the provisions of NCBTR-2017?
- viii. Whether it is justified to develop the project under BOO regime?
- ix. What would be mechanism for acquisition and pricing of land?
- x. Whether the proposed indexation mechanism is justified?
- xi. Whether the criteria for technical and financial evaluation is acceptable?
- xii. Whether the proposed Bid Evaluation Committee is in compliance with NCBTR-2017?
- xiii. Any other issue with the approval of the Authority.
