

List of Issues for Public Hearing in the matter of BER for 220 MW Site Neutral Hybrid Project at Dhabeji Grid Station

1. Whether the bidding process carried out by KEL is transparent and in accordance with the NCBTR-2017 and directions of the Authority in the approved RFP or otherwise?
2. Whether KEL has complied with the directions of the Authority in the approved RFP regarding prudence check and displacement of expensive units?
3. Whether the lowest Bid Tariff is prudent and reflective of prevailing market conditions?
4. Whether the delay in the bidding process against the timelines specified under the NCBTR 2017 is justified?
5. Whether KEL has established measures to ensure that a successful bidder remains technically qualified, in the event that the bidder makes changes to its equipment and/or suppliers?
6. Whether the cost of the transmission line has been taken into account in the investment plan/reviewed plan as submitted by KEL to the Authority for approval?
