Date of Hearing: February 11, 2025
On behalf of:

Complainant: Mr. Rameez

Respondent: Mr. Mohsin Islam, SDO, LESCO

Subject: **DECISION IN THE MATTER OF COMPLAINT FILED BY MR. MUHAMMAD RAMEEZ ANJUM UNDER SECTION 39 OF THE REGULATION OF GENERATION, TRANSMISSION AND DISTRIBUTION OF ELECTRIC POWER ACT, 1997 AGAINST LESCO REGARDING DETECTION BILL (REF#03-11533-0639536 U)**

DECISION

This decision shall dispose of the complaint filed by Mr. Muhammad Rameez Anjum (hereinafter referred to as the "Complainant") against Lahore Electric Supply Company Limited (hereinafter referred to as the "Respondent" or "LESCO"), under Section 39 of the Regulation of Generation, Transmission and Distribution of Electric Power Act, 1997 (hereinafter referred to as the "NEPRA Act").

2. The Complainant in his complaint disputed the charge of unjustified bill amounting to Rs. 341,779/- following the replacement of its defective meter. The Complainant approached LESCO, however, the grievances of Complainant were not redressed and consequent to such, resolution of issue was sought from NEPRA. Accordingly, matter was taken up with LESCO whereby LESCO vide a letter dated October 23, 2024 submitted that the Complainant's meter became defective and was replaced during October, 2023 while 5317 units were, later, charged against the Complainant's account as per the M&T report of replaced meter. The Complainant raised observations over LESCO's report.

3. In order to probe further into the matter, a hearing was held on February 11, 2025 at NEPRA Provincial Office, Lahore which was attended by representatives of both the parties wherein the matter was discussed at length. The case has been examined in detail in the light of the written/verbal arguments of both the parties and applicable law. The following has been concluded:

- i. The Complainant's residential connection installed against reference No. 03-11533-0639536 was charged detection bill of 5317 units during August, 2024 based on data retrieval report of impugned meter as the same became defective during March, 2023 and later, got replaced during the month of October, 2023. The Complainant was of the disputed view that the units have been adjusted after extra ordinary time period with the mala fide intent.

- ii. Perusal of documentary evidence reveals that the Complainant's was charged (5317) units during August, 2024 on account of the actual consumption of replaced meter i.e. 16809 units retrieved through M&T report, in comparison with final reading charged in the regular and average billing i.e. 11492 units. According to clause 4.3.2 (d) of Consumer Service Manual (CSM), consumer's account shall not be liable to any adjustment if the data is not retrieved within three months of display wash. However, as per available record, the Complainant's meter was declared defective during March, 2023, however, the retrieved units were charged during August, 2024 accruing considerable delay of approximately (18) months while standing in direct violation of CSM.
- iii. According to the clause 6.1.4 of CSM, meter readers shall also check the irregularities/discrepancies in metering system at the time of reading meters/taking snap shots and report the same in reading book/discrepancy book or through any other appropriate method as per the practice. The concerned officer/official will take corrective action to rectify discrepancies which was also got delayed by LESCO ensuing the charging of detection bill. Furthermore, LESCO failed to point about discrepancy expeditiously from which stand point consumers have legitimate expectancy that what is being billed is actual cost of electricity and it is correct. In view of the above, penalizing the Complainant on part of incompetency of LESCO officials is strictly not justified.
- iv. Hence, charging of the detection bill on the basis of reading difference is not merited as per above mentioned clause of CSM which obligates LESCO to finalize adjustment as per retrieval report within (3) months of malfunction, however, actually levied by LESCO after delay of (18) months in instant matter which requires withdrawal of the detection bill.

4. Foregoing in view, LESCO is directed to withdraw disputed detection bill of 5317 units, charged to the Complainant during August, 2024 based on the data retrieval report of the impugned meter along with the adjustment of LPS and FPA accordingly. Compliance report be submitted to this office within fifteen (15) days.

5. مندرجہ بالا حقائق کے پیش نظر لیسکو کو ہدایت کی جاتی ہے کہ کنزیومر سروس مینٹول (CSM) کی شق (d) 4.3.2 کو مد نظر رکھتے ہوئے شکایت کنندہ کو ماہ اگست 2024 میں معیوب میٹر کی ڈیٹا ڈاؤنلوڈ رپورٹ کی بنیاد پر چارج کیا گیا 5317 یونٹس کا بل ختم کیا جائے اور اس مد میں چارج کیے گئے FPA/LPS (اگر کوئی ہے) کو بھی منہی کیا جائے۔ درج بالا احکامات پر عمل کی رپورٹ پندرہ (15) یوم کے اندر جمع کروائی جائے۔
