Re: Modification of License No. IGSP/41/2014 under Regulation 10(2) of NEPRA Licensing (Application & Modification Procedure) Regulation, 1999

Dear Sir:

### Back Ground

1. Chiniot Power Limited (the "Licensee") has set up a bagasse/biomass based co-generation power plant at 26 KM Jhang Chiniot Road, Chiniot. On 11 June 2014, the Licensee was granted Generation License No. IGSP/41/2014, 62.4 MW (Gross) for a term of thirty (30) years (the "Generation License").

2. The Licensee was allowed to sell electric power to one (1) Bulk Power Consumer ("BPC") namely Ramzan Sugar Mills Limited ("RSML").

### Proposed Modification

3. The Licensee intends to modify the Generation License, enabling it to sell electric power to following additional consumers including BPCs:

No.	Name of the Proposed Consumers	Proposed Electricity to be Sold
1	Unitas Steel (Private) Limited ("Unitas Steel")	Initial supply: 10000 KW/ hr After extension: 10000 + 6000 KW = 16000 KW/ hr
2	Crystal Plastics (Private) Limited ("CPPL")	75 KW/ hr
3	Sharif Dairy Farms (Private) Limited ("SDF")	500 KW/ hr
4	Sharif Milk Products (Private) Limited ("SMPL")	200 KW/ hr

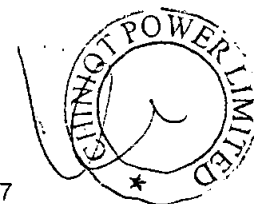

### Statement of the Reasons

4. CPPL, SDF and SMPL are group companies of the Licensee. Whereas, Unitas Steel is going to be setup adjacent to RSML. Proposed amendment in Generation License will *inter-alia* ensure the continuous, safe and, reliable supply of electric power to the proposed consumers keeping in view the financial and technical viability of the Licensee.

## Statement of Impact on Tariff etc

5. The Licensee had accepted the up-front tariff for bagasse, therefore, proposed amendment will have no impact on tariff. Furthermore, the quality of service and the performance by the Licensee of its obligations under the Generation License shall not be effected with the proposed amendment.

## Modification Fee

6. Pay Order No. 14139186 dated 11 April 2016 in the amount of Rupees Three Hundred Fifty Two Thousand Eight Hundred and Twenty (Rs. 352,820) drawn in favour of NEPRA payable at any branch of Habib Bank Limited is enclosed as modification fee.

## Distribution Facilities

7. The distribution facilities to be used for delivery of electric power to the proposed consumers are/will be located on private property (without involving any public property) owned, operated, managed and controlled by the Licensee proposed consumers. Therefore, the supply of electric power to proposed consumers by CPL will not constitute a distribution activity under the relevant law.

8. Details of distribution facilities, single line diagram and simple diagram are enclosed.

You are kindly requested to modify the Generation License as requested above.

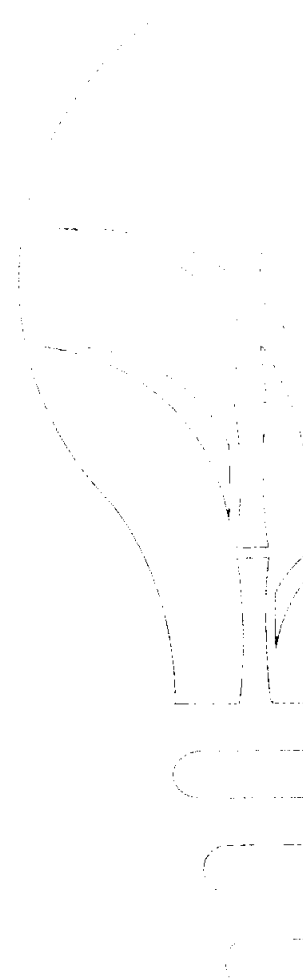

Yours truly,

**For Chiniot Power Limited**
