Subject :- <u>COMMENTS IN THE MATTER OF AUTHORITY PROPOSED</u> <u>MODIFICATION IN THE EXISTING DISTRIBUTION LICENSE OF</u> TRIBAL ELECTRIC SUPPLY COMPANY (TESCO).

Ref: Your letter No. NEPRA/ADG(Lic)/LAD-10/6473 Dated April 16, 2019

TESCO was awarded the Distribution License (No. 22/DL/2013 dated 12th August, 2013) to allow exclusively to provide distribution services, make sale of electric power, make schemes and engage in incidental activities in its service territory.

After amendment in Section 21 of NEPRA Act, 2018, the exclusive rights of distribution companies to provide distribution services in their respective territory has been omitted with object to encourage participation by more market players to enhance the efficiency and to ensure better price of service and choice for consumers for that a term "Supplier of Electric Power" has been introduced which are deemed suppliers for sale of electricity.

NEPRA has proposed modification in Distribution License of TESCO. The text of proposed modification in Article-7 of Distribution Licenses (No. 22/DL/2013 dated 12/08/2013) states that "The Licensee shall during the term of the license, provide distribution service in the service territory and frame schemes in respect of that service territory as per provisions of Article 3.2(i). The Licensee shall also make sales of electric power, make schemes and engage in incidental activities in the territory as a deemed supplier in terms of Section-23E of the amended NEPRA act."

The comments to the proposed modification are as under:

- 1. Financial assistance is allowed against TESCO receivables for domestic consumers in the light of SRO 114(1)/2015. In case of implementation of proposed Modification it is unclear that what will be the status of FATA Pick up subsidy.
- 2. TESCO has liabilities of Rs. 35.456 Billion against PESCO in respect of wheeling charges and Rs. 19.667 Billion against CPPA. In case of implementation of proposed modification who will pay these liabilities and who will recover the outstanding amount from TESCO consumers.

- 3. It is also unclear that what will be the common delivery point amongst the distributor of electric power and consumer of electric power. Possibly it may not be possible for all the suppliers of energy to setup its own distribution system, if it is so, then all the Suppliers have to rely on Distribution system of TESCO which may not be feasible for rest of Suppliers. TESCO has only one independent CPD and TESCO is also drawing electricity from PESCO CDPs which will make situation more complicated for suppliers.
- 4. One of the objectives of proposed modification is to ensure better and affordable price for consumers which may not be achieved due to additional burden on TESCO in case of shift of Industrial and Commercial consumers to private suppliers which may result in loss for TESCO.
