March 9, 2022

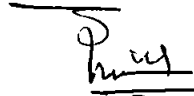

**Subject: Determination of the Authority in the matter of Policy Guidelines forwarded by the Ministry of Energy (MoE) under Section 31 of Regulation of Generation, Transmission and Distribution of Electric Power Act, 1997 for Re-Targetting Power Sector Subsidies – Phase-II**

Dear Sir,

Please find enclosed herewith subject Determination of the Authority along with Annexures (32 Pages) in the matter of Policy Guidelines forwarded by the Ministry of Energy (MoE) under Section 31 of Regulation of Generation, Transmission and Distribution of Electric Power Act, 1997 for Re-Targetting Power Sector Subsidies – Phase-II.

2. The instant Decision along with revised Annexures (SoTs) are being intimated to the Federal Government for the purpose of notification in the official Gazette pursuant to Section 31(7) of the Regulation of Generation, Transmission and Distribution of Electric Power Act, 1997 within 30 days from the intimation of this Decision. In the event the Federal Government fails to notify the subject tariff Decision or refer the matter to the Authority for reconsideration, within the time period specified in Section 31(7), then the Authority shall notify the same in the official Gazette pursuant to Section 31(7) of NEPRA Act.

Enclosure: As above

**Determination in the matter of Policy Guidelines forwarded by the Ministry of Energy (MoE) under Section 31 of Regulation, Generation, Transmission Distribution of Electric Power Act, 1997 for Re-Targeting Power Sector Subsidies- Phase-II**

1. **Background**

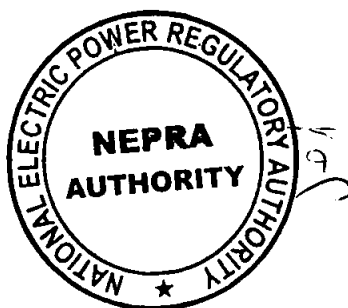

1.1. The Ministry of Energy (Power Division) (herein referred to as "MoE or the Ministry") vide letter dated December 30, 2021, forwarded Policy guidelines (guidelines), under section 31 of Regulation, Generation, Transmission Distribution of Electric Power Act, 1997 for Re-Targeting Power Sector Subsidies Phase-II. The Federal Government in its request submitted that Phase-II of the subsidy reforms entails the following;

- a. Residential Consumers; Gradual reduction in total net subsidy for unprotected consumers, reduction in cross-subsidy and removal of previous slab benefit.
- b. Agriculture consumers; Dividing agriculture tube-wells slab into two categories and reforming / gradually decreasing subsidies to QESCO tube-wells by subsidizing solarization / modernization of tube-wells.

1.2. For implementation of Phase-II, the Ministry stated that, a two-part approach is considered keeping in view the different timelines involved for proper analysis and firming up of proposal. In view of the Policy Guidelines as approved by the Federal Government under Section 31 of Regulation, Generation, Transmission and Distribution of Electric Power Act, 1997 for retargeting of power sector subsidies for implementation of part-(a) of phase-II, except cross subsidy reduction, the Ministry requested the following for consideration of the Authority;

- ✓ Removal of one slab benefit (Incremental Block Tariff) and incorporation of revised subsidy and inter distribution companies tariff rationalization / cross subsidies through modifications / adjustments in the DISCOs SoT as well as uniform SoT as was determined by NEPRA and notified through SRO Nos. 01 to 10 of 2019 dated January 01, 2019 as modified by SRO Nos.182(1)/2021 to 191(1)/2021 dated February 12,2021, SROs 1280 to 1289 (1)/2021 dated October 01, 2021 and SROs 1419 to 1428 (1)/2021 dated November 05, 2021 including the KE Schedule of Tariff currently in field.
- ✓ The Federal Government intend to implement the proposal modified / adjusted tariff structure with effect from 1<sup>st</sup> February, 2022.

2. A summary of proposed tariff by MOE is as under;

As per Authority's decision, only protected residential consumers will be given the benefits of one previous slab.

As per Authority's decision residential life line consumers will not be given any slab benefit.

Under tariff A-1, there shall be minimum monthly customer charge at the following rates even if no energy is consumed.

a) Single Phase Connections:

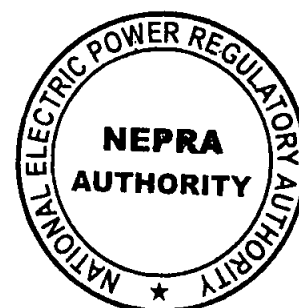

Rs. 75/- per consumer per month

b) Three Phase Connections:

Rs. 150/- per consumer per month

### 3. Proceedings

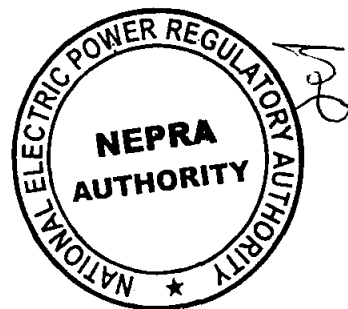

- 3.1. As the impact of the guidelines would directly impact the consumers, the Authority decided to provide an opportunity of hearing to all the stakeholders. Accordingly, a hearing in the matter was held on January 24, 2022, for which notices were published in the newspapers and individual notices were also issued to the relevant stakeholders.

- 3.2. On the basis of pleadings, evidence/record produced and arguments raised during the hearing, issue-wise discussion is as under;
- 3.3. The Ministry of Energy (MoE) was represented during the hearing by Mr. Mahfooz Bhatti, Joint Secretary along-with his team. The Ministry submitted during the hearing that Phase-I of the subsidy reforms proposal has already been approved by the Authority and notified by the Federal Government w.e.f. October 01, 2021. Regarding Phase-II, the intention of the Government is to provide subsidy to only those consumer classes who are vulnerable and to simplify the different tariff slabs for the purpose of simplicity and clarity. In this regard a two phase approach has been considered, whereby as a first step reduction in subsidy and removal of Incremental Block Tariff (IBT) has been proposed. The proposed reduction in subsidy for non-protected consumers is around Rs.20 billion. The Ministry further clarified that removal of IBT does not mean that consumers would be provided with benefits of all previous slabs, rather all units consumed would be charged under the relevant slab in which it falls.
- 3.4. The Authority observed that although provision of subsidy is the mandate of the Government, however, in light of observations of the Honorable Supreme Court Pakistan in Human Rights Case, the Federal Government has to come to NEPRA for any revision in the rates to be charged from the consumers.
- 3.5. The representative of the Ministry also submitted that at present around Rs.268 billion is being provided as subsidy to the domestic consumers, which is being picked up by the Government in fiscal space and also being shared by the different consumer categories. The Ministry further stated that at present around Rs.197 billion subsidy is being provided to non-protected consumers, however, in order to avoid sudden price shocks to the consumers, the subsidy would be reduced gradually. Similarly the protected consumers are being provided with a subsidy of around Rs.71 billion.
- 3.6. Upon inquiry from the Authority regarding solarization of QESCO tube-wells, the Ministry submitted that Agri. consumers would be gradually converted to solarization and accordingly subsidy would be reduced, however, at present there is no proposal for reduction in subsidy of Agri. consumers. Similarly, it was also stated that reduction in cross subsidy as mentioned in part "a" of the proposal is not part of the current request.
- 3.7. K-Electric in its written comments vide letter dated 20.01.2022 submitted that since the changes in slab benefit proposed by the Ministry for residential consumers will be applicable to K-Electric consumers, therefore, the proposed amendment / modification in the slabs of residential category of consumers may impact the average determined tariff of K-Electric, consequently impacting its Revenue. Accordingly, K-Electric requests NEPRA that any adjustment in SoT for determined tariff may be made keeping in view that average determined tariff of KE is not impacted.

- 3.8. Mr. Asad Saleem, a consumer, raised serious concerns regarding increase in tariff of around Rs.3.11/kWh from 200-300 units slab to above 300 units slab. The representative of the MoE, explained that currently, the effective rate of 300-400 units slab is Rs.14.78/kWh as against the proposed rate of Rs.15.73/kWh, thus there would an increase of around Rs.0.95/kWh.
- 3.9. Mr. Arif Bilwani, another consumer also requested clarification in terms of current request submitted by the Ministry. The Ministry in response while referring to para 3 and 4 of its letter dated 30.12.2021 explained that for implementation of Phase-II, a two-part approach is considered whereby the Authority has been requested for removal of one slab benefit (Incremental Block Tariff) and incorporation of revised subsidy, except cross subsidy reduction. The Ministry, while responding to the queries raised by Mr. Bilwani through email dated 21.01.2022, submitted that protected consumers including lifeline are 9.9 million, non-protected consumers up-to 300 units are 16.8 million, and other domestic consumers above 300 units are around 0.63 million, whereas, the number of ToU consumers is around 0.41 million. Regarding subsidy, the Ministry stated that at present around Rs.197 billion subsidy is being provided to non-protected consumers, as against subsidy of Rs.71 billion to the protected consumers. The Authority noted that although the MoE has tried to respond to the queries raised by Mr. Bilwani during the hearing, however, the MoE is directed to provide detailed response to Mr. Bilwani for each of the queries.
- 3.10. Regarding increase in average tariff, the Ministry submitted that with the proposed Phase-II program, the average consumer end tariff would increase by around Rs.0.20/kWh.
- 3.11. Mr. Tanvir Bari, representing KCCI did not support the request of the Ministry keeping in view the recent high monthly FCAs, and the proposed quarterly adjustments of around Rs.5.2/kWh filed by K-Electric.
- 3.12. While responding to the query regarding markup on delayed payments, the Ministry explained that no mark-up for delayed payments is passed on to the consumers. It was also submitted that the current request of the Ministry is not for increase in tariff determined by NEPRA, rather it is reduction in the subsidy provided by the GoP.
4. The Authority observed that although provision of subsidy is the mandate of the Federal Government, however, in light of observations of the Honorable Supreme Court Pakistan in Human Rights Case, the Federal Government has to come to NEPRA for any revision in the rates to be charged from the consumers. The Authority also observed that in the case in hand, although no revision in the NEPRA's already determined rates has been proposed, however, the Ministry has requested for removal of Incremental Block Tariff (IBT) i.e. removal of one previous slab for residential consumers and reduction in subsidy to the end consumers.

5. The Authority understands that with the proposed modifications, the tariff for residential consumers would increase, however, considering the fact that subsidy is the domain of the Federal Government and with the proposed changes, the intention of the Federal Government is to reduce its subsidy, the Authority has decided to accept the request of the Federal Government.
6. Accordingly the rates as proposed by the Federal Government, mentioned in Annex V attached with the request of the Ministry, have been incorporated in Annex-C and D of the Authority's decision dated 05.11.2021 in the last column i.e. "Applicable Variable Charges". Similarly, the request of the Ministry for removal of Incremental Block Tariff (IBT) has also been accepted and incorporated in Annex-C and D of the Authority's decision dated 05.11.2021 under the "A-1 GENERAL SUPPLY TARIFF – RESIDENTIAL" table. The same has also been incorporated in Annex-III of each DISCO attached with the Authority's decision dated 23.09.2021. Accordingly, the revised Annex-C and D and Annex-III of each DISCO attached with the instant decision shall replace the Annex-C and D attached with the earlier decision dated 05.11.2021 and Annex-III of each DISCO attached with the decision dated 23.09.2021. The Authority is also cognizant of the fact that the removal of Incremental Block Tariff (IBT) i.e. one slab benefit for the non-protected residential consumers, may result in under/ over recovery of the revenue requirement determined for XWDISCOs, which would be adjusted subsequently through sales mix variance.
7. Regarding, K-Electric, the MoE requested that the aforementioned changes be made in the Schedule of Tariff of K-Electric currently in field. The Ministry has also submitted that such changes would be applied w.e.f. 01.02.2022. K-Electric's MYT FY 2017-2023 was notified on May 22, 2019 and quarterly adjustments, pursuant to notification of its MYT, have been determined by the Authority till quarter ended March 2020. The quarterly adjustment determined for the quarter "January to March 2020" is applicable for the quarter "April to June 2020". However, if the aforementioned changes are not reflected in the SoT of K-Electric, it would result in differential tariff for K-Electric consumers vis a vis rest of Pakistan. Here it is pertinent to mention that the MoE vide letter dated 10.01.2022 also submitted that tariff for residential consumers of K-Electric in category 1-100 (protected) was proposed to be reduced from 7.74/kWh to 7.67/kWh i.e. reduction of Rs.0.07/kWh, however, in Annex-E of the NEPRA determination dated 05.11.2021, the same is determined as Rs.7.74/kWh. The MoE accordingly requested to reflect the tariff as Rs.7.67/kWh in the Annex-E. In view of the above discussion and keeping in view the letter of MoE dated 10.01.2022, the Authority has decided to amend the SoT determined for the quarter "January to March 2020", which is attached herewith as Annexure "E" and shall replace the Annex-E attached with the Authority's earlier decision dated 05.11.2021, to be applicable from the date mentioned in the notification of the instant decision. The SoTs of K-Electric for the period from April 2020 till the period, the instant decision is notified, would be issued as per the existing practice.
