PESHAWAR ELECTRIC SUPPLY COMPANY LIMITED

MULTIYEAR PETITION FOR DETERMINATION OF CONSUMER END TARIFF FOR FY 2020-21 to FY 2024-25

Before

The Honorable National Electric Power Regulatory Authority

1. PETITION SUMMARY

1.1 Details of Petitioner

Peshawar Electric Supply Company Ltd. Wapda House, Shami Road, Peshawar (referred hereunder as PESCO) was incorporated on 23rd April 1998. It was organized to take over all the properties, rights, obligations and liabilities of Water and Power Development Authority (WAPDA). NEPRA granted Distribution License No.07/DL/2002 to PESCO on 30-04-2002 for electricity distribution in Khyber Pakhtunkhwa jurisdiction of PESCO.

1.2 PESCO is represented by the following duly authorized persons:

• Engr. Muhammad Jabbar Khan

Chief Executive Officer

• Engr. Khadim Hussain Lara

Chief Engineer (P&E)

• Engr. Asim Raza,

Chief Engineer (T&G)

• Engr. Main Dilawar Shah

Chief Engineer Development (PMU)

• Engr. Javed Iqbal

Chief Operation Officer

• Engr. Sher Dad Khan

Chief Commercial Officer / CE (O&M) Dis.

Mr. Zamir Hussain Kolachi

DG (Human Resource)

• Mr. Raees Haider

DY. GM Finance / Finance Director

2. GROUNDS FOR PETITION

A company of the comp

Respectfully submitted,

- That NEPRA, under the regulation of Generation, Transmission and Distribution of Electric 2.1 Power Act, 1997 (hereinafter NEPRA Act), amended by the act of parliament, wherein, it has been enacted this Act shall be called the Regulation of Generation, Transmission and Distribution of Electric Power (Amendment) Act 2018, is responsible for regulating the electricity sector in Pakistan which includes determining the Revenue Requirement, tariffs and other terms and conditions for the supply of electricity by the Generation, Transmission and Distribution Companies and to recommend the same to the Federal Government for notification. For this purpose, NEPRA has laid down certain guidelines and procedures under the NEPRA Tariff Standards and Procedures Rules, 1998 and subsequent amendments made in the act. This petition is being filed in the light of updated NEPRA Act, wherein through the act of parliament the wire business has been separated from the Commercial services of a Distribution Company, according to NEPRA Act, Distribution Licensee under section 20 shall be limited to ownership, operation, management or control of distribution facilities for the movement or delivery to consumer of electric power and clause 23 (E) wherein the term Electric Power Supply Licensee has been introduced, act states that "no person shall unless licensed by the Authority under this Act, engage in the supply of electric power to a consumer: provided that the holder of a distribution license on the date of coming in to effect of the Regulation of Generation, Transmission and Distribution of Electric Power (Amendment Act, 2018) shall deemed to hold a license for supply of electric power under this section for a period of 5 years from the said date".
- 2.2 That PESCO, being a bonafide power distribution licensee, as on the date of amendment of NEPRA Act (amendment 2018) is a deemed supplier licensee, it requires adequate revenues in order to perform its obligatory duties prescribed by NEPRA under the NEPRA Act (amendment 2018), NEPRA Performance Standards (Distribution) Rules 2005, NEPRA Consumer Eligibility Criteria 2003, Distribution License of PESCO and other Obligations as determined by NEPRA from time to time. The main source of funding available to the petitioner for their revenue requirements are; (i) internal efficiency improvements, (ii) generation of adequate revenue through tariff and (iii) funding / borrowings. Internal efficiency improvements require commensurate financial resources either through borrowings

- or tariff. As per general principles of banking industry, international or local, the financial viability of borrowing organization is always taken as fundamental for lending decisions.
- 2.3 That in order to fulfill and perform its obligatory duties, as mentioned above, and to ensure financial viability of PESCO by recovering its prudently incurred costs and reasonable return, in order to upkeep and maintain its existing distribution services / network and to support the future investments for expansion of distribution services / network, this Petition is being filed for FY 2020-21 to 2024-25 through its Chief Executive Officer and other officers of PESCO, who have been duly authorized to sign and file this petition by the Board Of Directors, PESCO, copy of resolution is placed at Annex-A.
- Ministry of Energy (Power Division) has notified 1st, 2nd, 3rd and 4th Quarterly Adjustment for FY 2018-19, amounting to Rs. 30,563 million and 1st Quarter Adjustment for FY 2019 amounting to Rs. 2,865 million determined vide NEPRA Decision dated 14-06-2019, 27-09-2019 and 26-11-2019 respectively, and notified vide SRO No. 669(I)/2019 dated 28-06-2019, SRO No.1175(I)/2019 dated 30-09-2019 and SRO No. 1477(I)/2019 dated 29-11-2019, respectively. Moreover, NEPRA has also determined 2nd and 3rd Quarter adjustment pertaining to FY 2019-20 amounting to Rs. 29,187 million and the same has been notified vide SRO. No. 1072(I)/2020 dated 19-10-2020. The 4th Quarter adjustment of FY 2019-20 and 1st and 2nd Quarter adjustment of FY 2020-21 has also been determined by Nepra amounting Rs. 10,826 million (vide NEPRA decision dated 10-02-2021) and Rs. 7,684 Million and Rs. 7,302 Million (vide NEPRA decision dated 06-05-2021) respectively and the same has yet to be notified by GoP. PESCO has also filed 3rd Quarter adjustment of FY 2020-21 amounting Rs. 4,124 Million on dated 30th April 2021, however, the decision of the same is still awaited.
- 2.5 PESCO filed Tariff Petition for the Determination of its Consumer End Tariff for FY 2018-19 and FY 2019-20 on 25-10-2019 as per revised NEPRA (Amendment) Act 2018 for the determination of Distribution Tariff (Non-sale element) and Supply of Power Tariff (Consumer End Tariff). NEPRA issued Determination for Distribution Tariff on 11-12-2020 and for Supply of Power Tariff on 14-12 2020. Subsequently, Federal Government (Ministry of Energy (Power Division)) filed a Motion on 21-01-2021 for recommendation of Uniform Consumer End Tariff of XWDISCOs for FY 2019-20 and accordingly NEPRA issued its decision on 12-02-2021 and the same was notified by GoP vide SRO No. 190(I)/2021 dated

12-02-2021. NEPRA determined PESCO tariff of Rs 16.96 /KWh and Rs 16.85 /KWh for FY 2018-19 & FY 2019-20 including Prior Year Adjustment of Rs. (1.56) /KWh and Rs. (1.74) /KWh respectively.

- 2.6 PESCO is of the view that the tariff determined by NEPRA will not generate enough revenue to meet its revenue requirement. With the implementation of tariff in its present form, the Company's Operations would become unsustainable; accordingly, PESCO filed Review Motion with NEPRA on 24th December 2020. Hearing of the same was held on 02rd February 2021. The Review Motion was filed on the following grounds:
 - i. Transmission & Distribution Losses.
 - ii. RORB & Calculation of Deferred Credits.
 - iii. Weighted Average Cost of Capital (WACC).
 - iv. Provision for Bad Debts.
 - v. Post-Retirement Benefits.
 - vi. CPPA Overhead charges.
 - vii. Supplemental Charges.
 - viii. Turnover Tax.
 - ix. Recovery of Revenue on Rs. /Kw Basis and Increase in Fixed Charges.
- 2.7 NEPRA has returned back PESCO's Review Motion for Distribution of Power and Supply of Power tariff on 19th April, 2021 by considering the fact that the determination against which Review Motion was filed has already been notified vide SRO 190(I)/2021 dated 12th February, 2021 with the directions to submit the concerns raised in Review Motion in next Tariff Petition for consideration of the Authority.
- 2.8 Since FY 2014-15, NEPRA has allowed offsetting the Late Payment Charges (LPC) recovered from the consumers against the Late Payment Invoices of markup on delayed payments i.e supplemental charges raised by CPPA, however same is not enough to pay off the supplemental charges completely. CPPA is charging supplemental charges to PESCO on account of delayed payments to IPPs and so far CPPA has charged Rs. 59.065 Billion to PESCO up to 30.06.2020. CPPA has charged Rs. 33.434 Billion to PESCO on account of Supplemental Charges for the period 2014-15 to 2019-20, however the LPS collected from the consumers during the said period is Rs. 7.509 Billion with a shortfall of Rs. 25.925 Billion.

It is brought into the knowledge of the Regulator that the minimum period between each imposition of ban is at least 5-years. As and when the ban is lifted it is subject to the approval of Ministries and the minimum critical requirement as accepted.

Lifting of ban and process of recruitment takes at least two years to come with the minimum required staff and after that subsequently the trained staff gets minimum satisfactorily working standards within next 5-years.

It is pointed out that the practical requirement of the line staff and supervisory staff is much higher than the other staff. PESCO is provided with 28,268 sanctioned posts, out of which it has since been working on half of the strength which is main cause of its low performance towards reducing line losses, recovery from dead defaulters, maintenance of line, augmentation of works, daily operation and maintenance etc.

In the light of above considerations previously provided targets towards line losses were discussed with the Regulator and being worked out accordingly.

At present PESCO is working with more almost half of the sanctioned staff with drastically low level of line and maintenance staff, which is resulting, into the following:

- 1- Increased theft of electricity;
- 2- Non-collection of revenues;
- 3- incomplete billing;
- 4- System failures;
- 5- Disruptions of supply;
- 6- Line Patrolling / Chowkidara;
- 7- Theft of Transformers.

It is submitted that, unlike other DISCOs, the ground realities of PESCO are altogether different as far as the area of jurisdiction of company is concerned; it delivers services over stretched area of about 74,500 Square Kilometers to 25 Districts of KPK as well as Azad Jammu & Kashmir.

 \dot{c}

According to the consumer statistics out of 3.65 million consumers, 87% are domestics and most of them either fall in cluster of villages or in very scattered area in hilly terrains

and desert. Even in hilly areas single house is connected through HT/LT lines through distribution transformers. The commercial consumers contribute only 10% and these commercial centers of medium level shops except cities like Peshawar, Mardan and D.I.Khan etc. whereas industrial sectors which is considered as the backbone on account of no loss & 100 % recovery of any DISCO is only 0.75% in PESCO designated industrial areas.

It is also mentioned that FATA/TESCO was detached from PESCO during July -2003 and most of the areas falling on the border of FATA have still the same culture of using direct electricity through hooks and non-payment of bills. It is on record that areas of PESCO Operation Division like Bannu, Tank, DI Khan, Hangu, Mattani,Badaber, Warsak, Charssadda, Shubqadaretc on the borders of FATA have worst results due to the influence of FATA culture, contrary to other areas like Swat, Hangu, Peshawar, Khyber, Mardan, Swabietc have good results compatible with good DISCOs.

PESCO intends proper & timely maintenance of above said huge system of company, complete all developmental works, system constraints, removal of hazardous locations & to provide better services to its consumers across Khyber Pukhtunkhawa& AJK but it is not possible with a deficit of approximately 53% staff and vehicles due to ban on recruitment by successive Governments since 2002 (when the Transmission & Distribution System & Consumers were almost less than half).

Therefore, approval requested from government /competent authorities for allowing to fill the vacant post & requirement of vehicles mentioned above on immediate grounds, so that better services to the consumers, proper meter reading, establishment of proper complaint offices as per SoP for better services and sustainable chowkidara from theft of energy as per SoP provided by Nepra be provided. To improve performance standard of NEPRA Distribution Rules (PSDR), Annual performance standard (APRS), SAIFI, SAIDI of PESCO, beside improvement in safety of staff and public, through timely maintenance of Transmission & Distribution System from September 2020 to March 2021during the maintenance period for removal of system constraints and execution of approved development works.

Acute Shortage of Vehicles

The Logistic requirement of the PESCO is not fulfilled as per yardstick of the Sub Divisions, Divisions and Circles. Government of Pakistan has imposed ban on the purchase of vehicles.

PESCO has been repeatedly requesting to PEPCO and Ministry to allow purchase of vehicles to meet with our critical field requirements. The shortage of vehicles adversely affecting the Company's performance in the following areas: -

- 1- Maintenance of existing feeders and lines;
- 2- Redressal of consumer complaints;
- 3- Redressal of Break downs (both Major / Minor);
- 4- Proposed LT / HT works;
- 5- Maintenance of Transformers, System Rehabilitation etc.

Due to above unfulfilled works, the consumers complaints and services are not as per standard and on the other side losses are uncontrolled as desired by the Regulator. The continued ban on the purchase of logistics is affecting revenue and system losses also, which are not up to the mark till now. The Regulator must understand the constraints of the company in this regard because in the light of shortage of vehicle and logistics facilities, the desired goal towards losses cannot be achieved, so far.

As the target losses are reduced by the Regulator, this will not be practically possible for the company and will contribute towards losses and overall performance and the targets will be difficult to be met with. These are the factors which make the decision of Regulator ineffective on one hand and failure of the company towards the compliance and overall non-achievement of targets on the other hand. Therefore, the decision of the Regulator is unjustified keeping in view the constraints mentioned above and need to be reviewed otherwise the decision will be unable to be materialized.

The present position / shortage of vehicles is as under: -

AUTHORIZED	AVAILABLE	SHORTAGE
1,121	721	400

Break-up of above shortage is as under: -

S#	Vehicle Type	Shortage
1.	Trucks	15
2.	Cranes	35
3.	Bucket Mounted Vehicles	35
4.	Suzuki Vans	05
5.	Pick ups	310
	TOTAL	400

In the light of above submissions, the company management is handicapped towards the day to day business as well as fulfilling its duties towards reduction of losses. These restrictions contribute in reduction in revenues and non-receipt of bills ultimately affecting the improvement of the system even through own resources, therefore the achievement is impossible and if the Regulator does not consider the request of the Company it will result into non-fulfillment of goals.

Keeping in view the above facts, Authority is requested to reconsider its decision keeping in view the actual T&D losses for FY 2018-19 37.11% (21.49% technical loss & 15.62% margin for law and order) for FY 2019-20 actual losses of 38.87% may be allowed. The determined T&D Loss target of 21.33% is not achievable, in a way is demotivating for the company as it is unrealistic, and discourages the urge to improve. The same (21.33%) cannot be set as baseline for Multiyear Tariff Petition against the actual 38.87% for FY 2019-20, otherwise it will be a disaster for the company. Accordingly, the target needs to be realistic and achievable and Authority is requested that the actual T&D Loss of FY 2019-20 should be set as base line for the Multiyear Tariff Petition and for FY 2020-21 to FY 2024-25 T&D loss target of 37.85%, 36.83%, 35.78%, 34.72% & 33.64% is proposed and accordingly be allowed.

4. RELIEF / DETERMINATION SOUGHT

a. OBJECTIVES OF THE PETITION

The aim of this petition is to obtain approval for the timely implementation of cost reflective tariff to yield PESCO's required revenues for the FY 2020-21 to 2024-25 and its recovery from consumers.

The implementation of cost reflective tariffs will benefit consumers and PESCO, as it will;

- i. Enable PESCO to improve service quality and reliability.
- ii. Enable the Company to pay its power purchase cost and play its role in mitigation of power shortage.
- iii. Provide adequate funds for the Operation, Maintenance and Expansion of Distribution Network.
- iv. Provide signals for efficient usage of distribution network and investment.
- v. Give price signal for efficient use of electricity.
- vi. Ensure the financial sustainability of PESCO.

b. FEATURES OF THE PETITION

The purpose of this petition is as follows:

- i. Sufficient average tariff to enable PESCO to recover prudently incurred operating costs and earn a reasonable return on its regulatory asset base to meet with its cash florequirements.
- ii. Incentive for PESCO to make operating efficiencies.

c. TARIFF REVIEW FORMULA AND PROCESS

i. The tariff formula provides a transparent and predictable way of determining PESCO's distribution margin on annual basis. A formula is advantageous as it reduces uncertainty for the utility and for customers. It also provides a simple way for NEPRA to provide incentive to the company to reduce losses and/or make operating efficiencies as required.

For the purpose of the tariff determination methodology, the following is hereby defined:

- Base Year, in this application, FY 2019-20, means the year on which the annual or
 multiyear tariff projection is being made.
- Tariff Control Period for Multiyear Tariff means a period of assessment under multiyear tariff regime, i.e. 2020-21 to 2024-25.
- Test Year means the first year of tariff control period in multiyear tariff regime, i.e. 2020-21.
- iii. For determination of Revenue Requirement, Power Purchase cost and Distribution Margin the following formulae have been proposed in the NEPRA Tariff Guidelines:

Formula for Revenue Requirement:

$$RR_D = PPP_D + DM_D \pm PYA_D$$

Where:

RR_D is the eligible distribution company's revenue requirement

 $\ensuremath{PPP_D}$ is the power purchase cost for an eligible distribution company

 DM_D is the distribution margin for an eligible distribution company

PYAD is the prior year adjustment for an eligible distribution company

Formula for Power Purchase Cost:

$$PPP = PP(EC) * Q(p) + PP(cc) + TC + MoF$$

Where:

PPP is the Power Purchase Price

PP(EC) is the energy charge part of PPP.

Q(p) is quantity purchased by the company

PP(cc) is the capacity charge part of PPP

TC is the transmission cost

MoF is the Market Operator Fee

Formula for Distribution Margin

$$DM_D = RB_D * RORB_D + D_D + E_D + t_D \pm ORC_D$$

Where:

DM_D is the eligible distribution company's Distribution Margin

RB_D is the eligible distribution company's rate base

RORB_D is the eligible distribution company's cost of capital

D_D is the eligible distribution company's depreciation expense

E_D is the eligible distribution company's expenses including but not limited to operation, maintenance and human resources

t_D is the eligible distribution company's federal and provincial taxes (allowed as pass through)

ORC_D is the eligible distribution company's other regulatory costs including other income

Under the proposed tariff-setting methodology, the average retail tariff would consist of (i) the Power Purchase Price (PPP), which would be passed through to the end users in the retail tariff and (ii) the average distribution margin, which would be set on the formula-based methodology.

For a multi-year tariff following periodic adjustments have been proposed for the tariff control period based on the periodic performance of the distribution companies evident in actual results:

For adjustments with regards to the power purchase cost:

- Quarterly PPP Adjustments the scope of which would be limited to:
 - i. The adjustments pertaining to the capacity and transmission charges.
 - ii. The impact of T&D losses.
 - iii. Adjustment of Variable O&M.

- i. The adjustments on account of variation in fuel cost component of PPP would be done on monthly basis. This adjustment reflects in the consumers' monthly bill as Fuel Adjustment Charge.
- ii. In view of any abnormal changes the Authority may review these references along with any quarterly adjustment. Here it is pertinent to mention that PPP is pass through for all the DISCOs (variable cost) and its monthly references would continue to exist irrespective of the financial year, unless the new Schedule of Tariff (S0T.) is notified by the GOP.

For adjustments with regards to the different components of the Distribution Margin will be reflected as follows:

The O&M component of the Distribution Margin shall be indexed with CPI subject to adjustment for efficiency gains (X factor). Accordingly, the O&M will be indexed every year according to the following formula:

 $O&M_{Rev} = [O&M_{Ref} (Controllable Cost) * {1+(\Delta CPI-X)}] + Uncontrollable Cost (Actual)+N+Z$

Where:

O&M (Rev) = Revised O&M Expense for the Current Year.

O&M (Ref) = Reference O&M Expense for the Reference Year

 Δ CPI = Change in Consumer Price Index published by Pakistan Bureau of Statistics latest available on 1st July against the CPI as on 1st July of the Reference Year in terms of percentage.

X = Efficiency factor

N = New Hiring including indexation of controllable and un-controllable costs.

Z = Cost relating to extra ordinary events with financial impact of Rs. 25 Million or more.

Under the proposed tariff-setting methodology, the average retail tariff would consist of (i) the Power Purchase Price (PPP), which would be passed through to the end users in the retail

Accordingly, NEPRA is requested to consider the same and allow the shortfall amount to PESCO as per detail below:

Year	Supplemental Charges	Late payment Charges from Consumers	LPS Collection from Consumers	Rs. In Billion Shortfall
2009-10	Rs.1.002	Rs. 0.669	Rs.	Rs. 0.333
2010-11	3.831	0.854		2.977
2011-12	5.596	1.074		4.522
2012-13	5.563	1.386		4.177
2013-14	9.639	1.373		8.266
Sub Total:	25.631	5.356		20.275
2014-15	4.941	1.637	1.118	3.304
2015-16	2.042	1.451	1.189	0.591
2016-17	2.621	1.595	1.233	1.026
2017-18	2.846	1.839	1.325	1.007
2018-19	7.973	2.044	1.290	5.929
2019-20	13.011	3.084	1.354	9.927
Sub Total:	33.434	11.650	7.509	21.784
Grand Tota	l: Rs.59.065	Rs. 17.006	Rs. 7.509	Rs. 42.059

- 2.8 (A) Regarding tariff of AJ&K, subsequent to the meeting held on 08-12-2015 under the Chairmanship of Secretary, Ministry of Energy (Power Division) Islamabad vide section officer letter No. PF-05(19)/2013 dated 11-02-2016 where in it was decided that, in the light of clause 5.2 b of the Mangla Dam Raising Agreement, executed between Ministry of Water & Power (Now Ministry of Energy (Power Division)), Wapda & Government of AJ&K, tabelian to beyond September 2003, for AJ&K is to be fixed by GoP on the recommendation of a subcommittee notified by Ministry of Kashmir Affairs & Northern Areas and Frontier Regions (Now Ministry of Kashmir affairs and Gilgit Baltistan).
- 2.9 Accordingly, the Sub-Committee constituted recommended that the Tariff of AJK may be linked with the domestic tariff as applicable for 1-100 units category because of the fact that 80% of the AJK consumers are domestic. It was accordingly requested in the Review Motion for FY 2015-16 that the recommendation of the sub-committee may be considered and be allowed but the same was not allowed by the Authority. It is pertinent to mention here that an amount of Rs. 18,944 Million is receivable from Government of AJ&K (as on 31-03-2021)

after adjustment of Rs.4,892 million against Foreign Relent Loans and Rs. 14,900 million as non-cash adjustment against Government investment. Government of AJ&K is only paying Rs. 2.59 /Kwh to PESCO as against the notified tariff of Rs 17.85 /Kwh (for regular category), Rs. 23.55 /Kwh and Rs. 16.65 /Kwh for Peak and Off Peak in case of TOU Meters.

- 2.10 In compliance to Nepra Directives regarding taking up of issues of outstanding receivables on account of tariff of AJ&K, it is submitted that the ECC of Cabinet in its meeting held on June 10, 2019, considered the cash and non-cash settlement for Power Sector; Rs. 3/Kwh Subsidy announced by the Prime Minister for the industrial Sector and AJ& K dues, and approved proposal at para 8 (a) and 8 (b) of the summary with modification, vide decision no ECC 243/20/2019 dated June 19,2019, the relevant portion is reproduced as under:
 - "(b) On account of AJ&k Receivables of three DISCO's ie. Rs. 119.05 billion (IESCO Rs. 80.58 billion + GEPCO, Rs. 15.08 billion + PESCO Rs. 23.39 billion) Rs. 18.6 Billion are on account of taxes. From the balance of Rs. 100.5 billion, (119.05-18.6), Rs. 27 billion will be adjusted as cash @ Rs 9 billion per year, Rs. 16 Billion as non-cash against the relent loans for the aforementioned DISCOs and the balance Rs. 57.5 billion as equity in the DISCOs in the ratio equivalent to the percentage share of their outstanding liabilities against CPPA. Claims of AJ&K subsidy beyond June 30, 2019 will be dealt with in accordance with the agreement of the GoAJK". (Copy of the letter is enclosed Annex B). Moreover, the GoP has also proposed to create a separate Distribution Company for AJK to resolve the issue regarding Tariff of AJK.
- 2.11 Furthermore, ECC of the cabinet vide decision No. 76/11/2019 dated 20-03-2019 decided that Power Division to facilitate AJ&K Govt. to establish regular DISCO to streamline electricity distribution in the region after seeking license from NEPRA (Copy enclosed **Annex-C**).
- 2.12 In pursuance of the above decision, a meeting was held under the chairmanship of Federal Secretary, Ministry of Energy (Power Division) on 09-10-2020 and the following decisions were taken:
 - i. Power Division will facilitate Government of AJ&K for filing a reference to NEPRA for enhancement of Water Use Charges;
 - ii. Government of AJ&K will share the Draft Power Sales Agreement within one week for due diligence by Power Division to proceed ahead on amending Mangla Raising
 Agreement of 2003;

- iii. Consent of AJ&K Government be shared with Power Division for initiating the process for amending Mangla Raising Project Agreement;
- iv. Power Division to constitute a committee under the Chairmanship of Federal Secretary for Power Division to finalize detailed road map for establishing a regular DISCO at AJ&K, decide on change in WUC, and review power sales terms for modification of Mangla Dam agreement of 2003. Accordingly, the Committee was constituted under the Chairmanship of Federal Secretary, Power Division for the said purpose and agreed to finalize / complete this assignment within two months;
- v. AJ&K Government to share the recent study completed by Consultants for establishment of a DISCO for peer review by Power Division.
- 2.13 Further, PESCO has received an adjustment of Rs.4,892 Million & Rs. 14,900 Million against AJK Receivables by adjusting foreign Relent Loans and GoP Investment (which was reduction Rs. 50.158 Billion from Rs. 64.094 Billion) in December, 2020 vide Ministry of Energy (Power Division) letter no. PF.No.05(02)2019-20 dated 23-12-2020 (Copy of the letter attached at **Annex-D**)
- Moreover, the Federal Government has announced uniform seasonal pricing structure vide S.R.O. 1379(1)/2019 dated 12-11-2019 (Copy enclosed at Annex-E) for the period November 2019 to February 2020 on units consumed above the consumption made during the same period / month last year. Accordingly, PESCO has charged subsidized rates of Rs. 11.76 per unit to the specified consumers and submitted USPS subsidy claims of Rs. 707.50 Million to Cost Accounts Officer, Subsidy Cell, Ministry of Energy (Power Division) during the period Jan 2020 to Mar 2020. The USPS subsidy claims were returned by the Cost Accounts Officer, Subsidy Cell, Ministry of Energy (Power Division) with the remarks that the said S.R.O of the Speak of USPS subsidy by the Federal Government and the matter may be taken up with CPPA-G for settlement.
- 2.15 It is pertinent to mention here that PESCO is facing revenue shortfall of Rs. 707.50 Million on the basis of subsidized rates charged to the consumers and the recovery of the revenue shortfall is still pending. It is requested to include the same in PESCO prior year adjustment for FY 2019-20 as the calculations of all the regulated adjustments (both monthly and quarterly) were based on these units with the assumption of generating the total revenue as determined by Nepra.

CONFIRMATION OF COMPLIANCE WITH TARIFF STANDARDS AND PROCEDURES

This petition is being filed in accordance with the NEPRA Tariff Standards and Procedure Rules 1998 amended as on 02nd May, 2018 and the NEPRA Tariff Guidelines 2015.

Rules reference	<u>Requirement</u>	Petition Reference

(c)	Grounds and facts for petition	3
(d)	Relief or Determination sought	4
(e)	Proposed changes in tariff	5
(f)	Summary of evidence	7

3. GROUNDS AND FACTS FORMING BASIS OF THE PETITION

The grounds and facts forming the basis of this petition are as under:

- 3.2 Under the 1997 Nepra Act amended in 2018, NEPRA is responsible for determining tariffs and other terms and conditions for the supply of electricity by the Generation, Transmission and Distribution Companies and to recommend these to the Federal Government, subject to the need to comply with guidelines, not inconsistent with the provision of the NEPRA Act, laid down by the Federal Government. NEPRA is also responsible for determining the process and procedures for reviewing Tariffs and recommending Tariff adjustments.
- During Current FY 2020-21, PESCO charged the Consumer-end Tariff of FY 2017-18 notified vide S.R.O No. 09(I)/2019 dated 1st January, 2019 comprising of the adjustment on account of PPP (including impact of T&D losses on FCA) from July 2017 to June 2018 and prior year adjustment for the FY 2017-18 along with impact of DM, other income and sales mix for FY 2017-18. Moreover, Ministry of Energy (Power Division) has also notified 1st 2nd and 3rd 4th Quarter Adjustment for FY 2018-19, amounting to Rs. 25,120 million & Rs. 5,443 million and 1st Quarter Adjustment and 2nd 3rd Quarter Adjustment for FY 2019-20 amounting to Rs. 2,865 million and Rs. 29,187 Million as determined by NEPRA and notified vide SRO No. 669(I)/2019 dated 28-06-2019 (effective up to 30-09-2020), SRO No. 1175(I)/2019 dated 30-09-2019 (effective up to 30-09-2020), SRO No. 1477(I)/2019 dated 29-11-2019 (effective up to 30-11-2020) and SRO. No. 1072(1)/2020 dated 19-10-2020 (effective up to 18-09-2021), respectively. Moreover, PESCO has also filed 4th quarterly adjustment on 29-07-2020 and the decision was issued on 10-12-2021 by Nepra amounting Rs. 10,826 Million, however the same is yet to be notified.
- 3.4 PESCO filed Tariff Petition for the Determination of Consumer End Tariff for FY 2018-19 and FY 2019-20 on 25-10-2019 as per revised NEPRA Act for the determination of Distribution Tariff (Non-sale element) and Supply of Power Tariff (Consumer End Tariff). Nepra issued Determination for Distribution Tariff on 11-12-2020 and for Supply of Power Tariff on 14-12-2020. Subsequently, Federal Government (Ministry of Energy (Power Division)) filed a Motion on 21-01-2021 for recommendation of Uniform Consumer End Tariff of XWDISCOs for FY 2019-20 and accordingly NEPRA issued its decision on 12-02-2021 and the same was notified by GoP vide SRO No. 190(I)/2021 dated 12-02-2021. NEPRA determined PESCO tariff of Rs 16.96 /KWh and Rs 16.85 /KWh for FY 2018-19 &

FY 2019-20 including Prior Year Adjustment of Rs. (1.56) /KWh and Rs. (1.74) /KWh respectively.

- 3.5 Currently, PESCO is charging the Consumer-end Tariff of FY 2019-20 as notified vide S.R.O no. 190(I)/2021 dated 12-02-2021 including the negative Prior Year Adjustment of Rs. (1.74) per unit: before that PESCO was charging the Consumer-end Tariff of FY 2017-18 notified vide S.R.O no. 09(I)/2019 dated 01-01-2019 during the period 1st July 2020 to 12th February, 2021. The 2nd & 3rd Quarter Adjustment of FY 2019-20 amounting to Rs. 29,187 Million as determined by NEPRA was also notified during FY 2020-21 vide SRO No. 1072(I)/2020 dated 19-10-2020, furthermore, the 4th Quarter Adjustment of FY 2019-20 amounting Rs. 10,826 Million as determined by Nepra is yet to be notified. Moreover, the 1st & 2nd Quarter Adjustment of FY 2020-21 amounting to Rs. 7,684 Million and Rs. 7,302 Million has also been determined by Nepra but it is yet to be notified. Further, PESCO has also filed the 3rd Quarter adjustment of FY 2020-21 amounting to Rs. 4,124 Million on 30-04-2021 but the decision of the same is still awaited.
- 3.6 This petition is filed in pursuant to the section 31(4) of the Regulation of Generation,

 Transmission and Distribution of Electric Power Act, 1957.
- 3.7 NEPRA has determined Distribution Margin including both wire/distribution business and supply of power business of Rs. 1.69 /Kwh and Rs.1.99 /Kwh for FY 2018-19 and FY 2019-20 respectively.
- 3.8 The Distribution Margin includes Salaries & Wages, Repairs and Maintenance, Travelling, Vehicle running and other expenses, Depreciation, Provision for Bad Debts and Return on Rate Base less Other Income. For test year 2020-21 Salaries and Wages comprises of approx. 58.1% of the total DM cost of PESCO, Whereas Repairs & Maintenance, Travelling and Vehicle running, other expenses, Depreciation, Provision for Bad Debts constitute 2.96%, 1.56%, 3.62%, 8.59% & 18.96% respectively.
- 3.9 On the direction of NEPRA, PESCO has created a separate pension fund; however, the Authority has yet to allow the actuarial cost to PESCO for maintaining the said fund. In addition, Authority has also directed to maintain separate funds for Deposit Work and Security Deposit in Tariff Determinations of PESCO for FY 2017-18 & FY 2019-20 and also disclosure be given the Annual Financial Statements of PESCO, the same has been made in

the financial statement for FY 2019-20 and the same will be disclosed in future periods as well.

- 3.10 It is pertinent to mention here that Authority has over deducted Rs. 13,952 Million for FY 2018-19 & Rs. 12,838 Million for FY 2019-20 from the Deferred Credits for calculating Average Regulatory Asset Base for FY 2018-19 & FY 2019-20 on the pretext of shortage of cash balance against pending liability of receipt against deposit works and consumer security deposits. Since FY 2015-16 PESCO is contesting this decision and provides the relevant details, however still PESCO is being penalized on account of wrong treatment of cash balance and lack of understanding in this regard.
- 3.11 PESCO again very humbly submits that substantial amount of Receipt against Deposit Works & Capital Contribution is part of work in progress and the remaining balance is either kep bank account or as short-term investment, as the case may be. Accordingly, Authority is requested to consider the same and the wrong treatment in calculation of Regulatory Asset Base, needs to be revised / rectified. Accordingly, the unjustified deductions since FY 2015-16 should be allowed to PESCO as Prior Year Adjustment. Authority has taken Rs. 45,443 Million & Rs. 45,613 Million as Deferred Credits amount as against the actual Rs. 31,491 Million & Rs. 32,775 Million for FY 2018-19 & FY 2019-20 respectively, on the apprehension that the funds have been mis-utilized. Similarly, NEPRA has over deducted amount of Rs. 22,009 Million for the period FY 2015-16 to FY 2017-18 from the assets base of PESCO compared to the actual audited amount of Rs. 11,779 Million.
- 3.12 PESCO has severe reservations on the treatment of Deferred Credit calculations, as NEPpoint in not considering the balance under the heads of Work in Progress, Bank balance / short term investment & Stock in operations rather comparing the Receipt against Deposit Works with the bank balances and penalized PESCO to this account repeatedly with heavy financial penalties on the same amount every year which is unjustified.
- 3.13 NEPRA has penalized PESCO with an amount of Rs. 3,099 Million during the period FY 2015-16 to FY 2017-18 and with Rs. 3,456 Million during FY 2018-19 to FY 2019-20 by wrongly calculating the Regulatory Asset Base without considering the relevant heads of work in progress, stock etc. and penalizing with such heavy amount is contrary to the NEPRA

Act as these are not covered under any clause of the Act / Rules and required to be allowed to PESCO.

- 3.14 It is pertinent to mention here that PESCO like all the other DISCOs maintains inventory records as per the Inventory Recording Procedure approved by the competent authority and the records are maintained based on the single entry card i.e. any inventory received by the store keeper is recorded irrespective of the source of financing because of the nature of inventory, physical location of stores and space. Since the works conducted under various scheme such as DOP, ELR, STG, Deposit Works etc are carried out throughout the year, the stock is released against each work order and the Authority's apprehension that the funds have been mis-utilized merits reconsideration as by deducting the amount from Revenue Requirement is creating cash flow problems to the already cash trapped company. The said deduction on account of Deposit Works, Stock in operations etc. from RORB is unjustified as the same has no relevance with the revenue requirement and these deductions are further reducing the allowed Distribution Margin which in PESCO's view is already on a lower side. Also the Authority is not considering the amount of work in progress under deposit head together with the cash shortfall that was inherited by PESCO on its creation in 1998.
- 3.15 It is once again emphasized that PESCO was not able to implement the NEPRA determined tariff during the period Sept 2008 to Sept 2010 and from July 2012 to April 2014 because of the Stay Orders issued by Peshawar High Court. The financial impact of stay on tariff for the period Sept 2008 to Sept 2010 is Rs. 18.6 Billion and for period July 2012 to April 2014 is Rs. 33 Billion. The amount of Rs. 18.6 Billion is yet to be received by PESCO, however, PESCO has received subsidy of Rs. 33 Billion as non-cash settlement during FY 2015-16. The delay in recovery of legitimate revenue has badly hit the already weak cash flow position of the company and the financial charges, if calculated at an average rate of 10% comes to approx. Rs 20.64 Billion up to 30.06.2020, which PESCO has lost due to delayed recovery and these are continuously accruing as PESCO has not yet received the stuck amount of Rs. 18.6 Billion with an annual impact of Rs. 1.86 Billion.
- 3.16 Due to the reason stated above, PESCO is facing huge liquidity crisis and the liability to CPPA has mounted to Rs. 371 Billion (Audited) up to 30th June, 2020. Although, PESCO has always agitated during Tariff Petitions against the Adjustment of Late Payment Surcharge with Supplemental Charges, since the same is not sufficient to offset against the supplemental

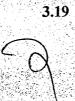

charges. Authority in its determination for FY 2015-16 states that the short fall is due to under recoveries faced by PESCO as against the NEPRA Determined Targets, however the same is not based on the ground realities, since the Late Payment Surcharge is only paid by the consumers not paying within due date whereas the Supplemental Charges are charged on the basis of Payables to CPPA and are charged on the basis of Actual Cost of Power Purchase whereas PESCO could not able to implement the respective tariff due to stay orders and delayed recoveries of Quarterly and other adjustments.

3.17 Moreover, timely determination / notification of Tariff and the delay in the recovery of Capacity charges as well as Tariff Differential Subsidy from GoP/AJK receivables are also contributing to less payment to CPPA thereby resulting in supplemental charges to PES 3. Although the tariff was implemented later on but the delay in recovery of revenue has a significant financial impact and it needs to be considered. Hence there is not only difference in the amount charged by CPPA as supplemental charges but also applicability of late payment surcharge on the No. of Consumers and its actual payment by the consumers as well as difference in rates, resulting in cash shortfall to PESCO.

3.18 An analysis of Quarterly Adjustments Recovery mechanism is presented below:

Sr. No.	Financ ial Year			Date of Determination by NEPRA	etermination Allowed		Notification Date	Recovery Period
	2017-18	a. 1st, 2 nd , 3 rd & 4 th Qrt (July to June)			26,207	-2.6935	SRO No. 09(I)/2019 dated 01-01-2019	12 months 01-Jan-2019 to 31-Dec-2019

4	2020-21	c. 3rd Qrt	30-Apr-2021	Not Yet Determined				
				Sub Total	14,986			

The above table shows the delay in the Determination & Notification of Quarterly Tariff Adjustments resulting in abnormal delay in the recovery of the legitimate cost that is being charged by CPPA-G on real time basis. Definitely, the delay has a cost and it is to be borne by

- 3.19(a)PESCO in the shape of supplemental charges on one hand and cash flow problems and increase in CPPA-G payables on the other. These regulatory delays are a major contributing factor in accumulation of Circular Debt and Authority is requested to address this issue as it is beyond the control of PESCO. The mismatch between the generation cost and the consumer end tariff needs to be arrested immediately and the timing difference needs to be curtailed to the minimum possible level, may be a month or so instead of years / multiple months.
- 3.20 For instance, the Tariff Adjustment for the month of Jul 2018 was determined in June 2019 and also notified in June 2019, with a recovery period of 15 months i.e recovery to start in July 2019 and ends in Sept 2020. It shows that the cost that has been charged by CPPA in July 2018 was recovered completely in Sept 2020 with a delay of almost 2 years and 2 months.
- Moreover, PESCO has not received any amount from GoP on account of AQTA subsidy (Applicable Quarterly Tariff Adjustment) since 2017-18 which is piled up to Rs. 27 billion up to March, 2021. It is pertinent to mention here that adjustment of the 3rd and 4th quarters of 2019-20 and 1st, 2rd & 3rd quarters of FY 2020-21 is yet to be recovered and CPPA-G is regularly charging supplementary charges on the outstanding balance. Keeping in view the foregoing, Authority is requested to devise a mechanism for timely determination and notification of applicable quarterly tariff adjustments and early settlement of the subsidy from GoP.

3.22 A comparison of LPS charged to consumers, LPS recovered from consumers, Supplemental Charges and CPPA payables is as under:

Rs. In Million

Sr.	Year	2014-15	2015-16	2016-17	2017-18	2018-19	2019-20	Total
1.	Late Payment Surcharge (Accrual Basis)	1,637	1,451	1,595	1,839	2,044	3,084	11,650
2.	LPS Received (Cash Basis)	1,118	1,189	1,233	1,325	1,290	1,354	7,509
3.	Supplemental Charges	4,941	2,042	2,621	2,846	7,973	13,011	33,434
4.	Difference / Shortfall (1-3)	(3,823)	(853)	(1,388)	(1,521)	(6,683)	(11,657)	(25,925)
5.	CPPA Payables	137,653	149,846	181,290	221,735	317,694	370,561	370,561

- 3.23 Keeping in view the above facts, PESCO has a Distribution Margin (DM) of Rs. 3.48 /Kwh for FY 2019-20 on the basis of Audited Accounts and proposes DM (including Post Retirement and Bad Debts Provision) of Rs. 4.11 /Kwh, Rs. 4.25 /Kwh, Rs. 4.61 /Kwh, Rs. 4.91 /Kwh & Rs. 5.12 /Kwh for FY 2020-21 to FY 2024-25 respectively, on account of increase in Asset Base, the Inflationary trend, Salaries, Pension and Maintenance of the Distribution Network etc.
- As directed by the Authority, the losses study was carried out from the third party and the same has been completed, accordingly, the technical loss of PESCO as per independent assessment is 20.95% (17.31% below 11 KV network and 3.64% for 132 KV network). PESCO could not manage to reduce the distribution losses to the desired level, even with the involvement of police, because of the adverse law and order situation, War on Terror, Kunda Culture and non-cooperation by the local MPAs and MNAs. The actual T&D losses during FY 2019-20 were 38.87%, whereas the T&D losses for FY 2018-19 were 37.11%.

3.25 NEPRA has determined the tariff on the basis of T&D Losses of 22.43% and 21.33% for FY 2018-19 and FY 2019-20 whereas the actual losses of PESCO for FY 2018-19 & FY 2019-20 were 37.11% & 38.87% respectively. The actual T&D losses of PESCO against NEPRA target for the FY 2014-15 to FY 2019-20 & FY 2020-21 (up to April 2020) are tabulated as under:

Year	2014-15	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21 (Jul-Apr)
%age Losses Actual	34.8	33.7	32.6	38.1	37.1	38.9	36.3
%NEPRA Target	20.0	31.95	31.95	31.95	22.43	21.33	- O

- 3.26 The actual T&D Losses of PESCO remained in the range of 33% to 39% during the last 6 years, while the target set by NEPRA for FY 2018-19 & FY 2019-20 is over ambitious and not based on ground realities.
- 3.27 Authority is therefore requested that since losses have direct impact not only on financial position of PESCO but also adversely affects the circular debt position, payable to CPPA and supplemental charges paid by CPPA to power generators, the same may be rationalized / reconsidered according to the economic conditions and environment of PESCO and considering the fact that the said period has already been lapsed and the actual losses of PESCO are 37.11% for FY 2018-19 & 38.87% for FY 2019-20.
- 3.28 Keeping in view the technical & administrative problems of PESCO NEPRA determined target would not be achievable and require a sustained long term effort in the time span of 6 to 8 years provided huge finances are allocated for renovating and upgrading the Transmission & Distribution System besides other technical measures for controlling the theft of energy.
- 3.29 NEPRA has been comparing the losses position of PESCO with that of the other DISCOs. As a matter of fact the load of other DISCOs especially those of Punjab mainly comprises of big loss free consumers which is a major contributing factor towards reduction of percentage losses. On the other hand, the main load of PESCO comprises of small domestic consumers

which are fed through scattered LT Distribution network and lengthy 11 KV feeders emanating from distantly located Grids. As evidence, the loss free consumers of Hattar Industrial Estate have such an effect on the losses of the Hazara Circle-I that it is very much comparable with those of other DISCO's. The remaining 07 Circles comprises of Hard Area with FATA boundaries and dominating domestic customers, where the feeding arrangements are through scattered and lengthy distribution network and as such the losses of these circles cannot be compared with those of other DISCOs. The following are main reasons for not reducing Technical and Administrative losses to the desired level:

Technical:

- Lengthy Transmission Lines.
- Over loaded grid system.
- High ratio of 11 KV Distribution line to 400 volts line (1:1.2).
- Partially damaged distribution transformers.
- Very high percentage of Technical losses because of lengthy and out dated distribution and Grid System.

Administrative:

- Socio-Economic and culture issues
- Fata Boundaries
- Over all Law & Order Position.
- Consumer Mix
- Shortage of trained Manpower and lack of adequate financing.
- 3.30 The technical losses in our system are quite high as it is not upto the World standard due to overloaded/lengthy distribution and transmission network and allocation of limited resources. This has further been adversely affected by village electrification as lines have to be extended to remote areas for supplying power to scattered rural population under Political and Social Pressure.

3.31 The T&D losses target of 22.43% for FY 2018-19 & 21.33% for FY 2019-20 determined by NEPRA would not be achievable and requires a sustained long term efforts in a time span of 6 to 8 years as huge finances are required for renovating and upgrading the existing Transmission & Distribution System besides other technical measures for controlling the pilferage of energy. The detail analysis of the requested and Determined Technical Losses for FY 2018-19 & FY 2019-20 is as under:-

(i) <u>T&D LOSSES FOR FY 2018-19</u>

a. TECHNICAL LOSSES for FY 2018-19

NEPRA assumed PESCO request on account of Transmission Losses and LT Losses as 3.00% and 4.00% respectively and on the basis of said assumption allowed the same to PESCO. The fact remains that PESCO requested Transmission Losses of 3.49% and LT Losses of 4.39% in its Tariff Petition for FY 2018-19 and accordingly the losses allowed are on lower side, which needs to be rectified / reconsidered.

Similarly, NEPRA assumed 11 KV Distribution Losses of 12.93% based on third (3rd) party study, however the actual assessment of third party for 11KV Distribution Losses is 12.9995% and PESCO requested13.61% in its Tariff Petition for FY 2018-19, which also needs to be rectified / reconsidered.

Based on the above facts, the detailed analysis is as under:

Description	NEPRA Existing (2017-18)	Third Party Study	Tariff Petition 2018-19	NEPRA Assumed Figure of Tariff Petition / 3rd Party Study	NEPRA Deferm- ination	
Transmission Losses (132 KV) (%)	3.64%	3.64%	3.49%	3.00%	3.00%	
11 KV Network Losses (%)	12.999%	12.999%	13.61%	12.93%	12.93%	
LT Line Losses (%)	4.31%	4.31%	4,39%	4.00%	4.00%	
Total Technical Loss (%)	20.95%	20.95%	21.49%	19.93%	19.93%	

The breakup in the above table shows that the losses of 19.93% are neither based on PESCO Tariff Petition nor based on third party study; hence it needs to be reconsidered / rectified. The Authority is requested to allow PESCO the requested Technical Losses of 21.49% for FY 2018-19, otherwise at least the losses as per third party study of 20.95% may be allowed.

b. MARGIN FOR LAW & ORDER

NEPAR existing	PESCO Tariff Petition 2018-19	NEPRA Determination	
11.00%	15.62%	2.50%	

The Authority has revised the margin for Law & Order from 11% to 2.50% that is a reduction of 8.50% which is on a very higher side and it is requested to reconsider the said decision and the reduction, if to be made, may be made gradually in increments of may be 2%. The reduction of 8.50% will put an unbearable burden on PESCO and would adversely affect the already weak financial position of the company. The fact remains that the actual losses of PESCO for FY 2018-19 were 37.11% and an unrealistic target of T&D losses of 22.43% for the period that has already been lapsed and for the financial year which is closed is neither achievable nor justifiable. Accordingly realistic target of T&D losses for the FY 2020-21 and onwards may be made with a reduction of 1% to 2% on annual basis.

(ii) <u>T&D LOSSES FOR FY 2019-20</u>

a. TECHNICAL LOSSES for FY 2019-20

Similarly for FY 2019-20, NEPRA assumed PESCO request on account of Transmission Losses and LT Losses as 3.00% and 4.00% respectively and on the basis of said assumption allowed the same to PESCO. The fact remains that PESCO requested Transmission Losses of 3.70% and LT Losses of 4.38% in its Tariff Petition for FY 2019-20 and accordingly the losses allowed are on lower side, which needs to be rectified / reconsidered.

Similarly, NEPRA assumed 11 KV Distribution Losses of 12.93% based on third (3rd) party study, however the actual assessment of third party for 11KV Distribution Losses is 12.9995% and PESCO requested 13.38% in its Tariff Petition for FY 2019-20, which also needs to be rectified / reconsidered.

Based on the above facts, the detailed analysis for FY 2019-20 is as under:

Description	NEPRA Existing (2017-18)	Third Party Study	Tariff Petition 2019-20	NEPRA Assumed Figure of Tariff Petition / 3 rd Party Study	NEPRA Determ- ination
Transmission Losses (132 KV) (%)	3.64%	3.64%	3.70%	3.00%	3.00%
11 KV Network Losses (%)	12.999%	12.999%	13.38%	12.93%	12.93%
LT Line Losses (%)	4.31%	4.31%	4.38%	4.00%	4.00%
Total Technical Loss (%)	20.95%	20.95%	21.46%	19.93%	19.93%

The breakup in the above table shows that the losses of 19.93% are neither based on PESCO Tariff Petition nor based on third party study; hence it needs to be reconsidered / rectified. The Authority is requested to allow PESCO the requested Technical Losses of 21.46% for FY 2019-20 otherwise at least the losses as per third party study of 20.95% may be allowed.

b. MARGIN FOR LAW & ORDER FY 2019-20

NEPAR existing	PESCO Tariff Petition 2019-20	NEPRA Determination
11.00%	15.09%	1.40%

The Authority has revised the margin for Law & Order from 11% to 1.40% that is a reduction of 9.60% which is on a very higher side and it is requested to reconsider the said decision and the reduction, if to be made, may be made gradually in increments of may be 2%. The reduction of 9.60% will put an unbearable burden on PESCO and

would adversely affect the already weak financial position of the company. The fact remains that the actual losses of PESCO for FY 2019-20 were 38.87% and an unrealistic target of T&D losses of 21.33% for the period that has already been lapsed and for the financial year which is closed is neither achievable nor justifiable. Accordingly realistic target of T&D losses for the FY 2020-21 and onwards may be made with a reduction of 1% to 2% on annual basis.

PESCO requested 36.55% loss for FY 2019-20 whereas, PESCO could not achieved the targeted loss for FY 2019-20 due to pandemic COVID-19 during FY 2019-20. COVID-19 is a reality and has badly hit the economies throughout the world including Pakistan and especially PESCO, Authority is therefore requested to consider the same and allow a special allowance for the same (instead of deducting 9.60% already allowed margin) and actual losses of 38.87% for FY 2019-20 may be allowed to PESCO for smooth operations of the company otherwise the same target of T&D losses of 31.95% for FY 2018-19 and FY 2019-20 by including an allowance for COVID 19 may be allowed to PESCO.

The 21.33% for FY 2019-20 T&D losses target determined by NEPRA may be reconsidered by considering the Technical loss (21%) on the basis of third party study and keeping in view the Covid-19 Pandemic during the said period and Technical & administrative issues of PESCO, a margin for law & order may be allowed to PESCO. To reduce the T&D losses of PESCO huge finances are required for renovating and upgrading the existing Distribution & Transmission System beside other technical measures for controlling the pilferage of energy.

REASONS FOR LOSSES:

The following are also the reasons for not achieving the desired losses:-

Each DISCO has been provided staff with an approved yard stick as per WAPDA / PEPCO standards. The fulfillment of vacant positions is a pre-requisite of better service and performance.

The Government of Pakistan has introduced imposition of ban on all kind of recruitment since long which is subject to lifting of ban as conveyed from time to time.

The breakup of O&M cost for FY 2020-21 distributed between Distribution of Power and Supply of Power is as under:

Rs. in Million

Supply & Distribution of Power Business (Existing)

Salaries & Wages including employee's retirement benefits is the major component of O&M expense. Since PESCO was incorporated as company in compliance with power sector reform policy of Government of Pakistan and the WAPDA employees working in Area Electricity Board Peshawar gradually become employees of the company in terms of the Man Power Transition Plan, therefore PESCO had to Maintain the GOP pay scales and the terms of employment for the employees which were prevalent in WAPDA. The following additional increases are also made by GoP in its annual budget for FY 2019-20 along with various other impacts:

Increase in Pay & Allowances announced for FY 2020-21:

- 1. Expected increase in salaries.
- 2. Enhancement of danger allowance from Rs. 5,000/- to 7,000/- per month for line man.
- 3. Impact of Additional recruitment.
- 4. Enhancement of conveyance allowance to disable employees.
- Assistance package for families of employees who died due to COVID-19 while performing official duties.
- 6. Adoption of transfer policy.
- . 25% Disparity allowance announced by Federal Government since March-2021 onward.

- 8. Hiring cost against Market Implementation Regulatory Affair Division (MIRAD) is included in Pay & Allowances.
- 9. Cost of new hiring is claimed as an additional item as PESCO is operating with only 47% of existing staff and facing severe shortage of resources and if PESCO could not hire required staff the operations of the company would be unsustainable.
- 10. Employees Retirement Benefits have been based on the average of annual increase in the last three years audited figures as per the assumption used by the Valuer, Anwar Associates.

 Accordingly, pension increase of 8% and discount rate of 10% has been assumed.
- 11. Keeping in view the above increases, the Salaries and Wages are based on the Audited Financial Statement of PESCO for FY 2019-20 and Provisional figure for FY 2020-21 and projected for FY 2021-22 to 2024-25 are as under:

I. Existing Strength (Actual Working):

Rs. In Million

Description	2018-19	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25

Description	Provisional	Projected	Projected	Projected		
New Hiring (Nos)	7,498	4,958	1,330	995	226	
Cost (Mln. Rs.)*	2,466	1,574	405	225	74	

*The cost of new Recruitment is not included in the Salaries and Wages Cost and is covered through adjustment factor as variable 'N' in the O&M adjustment mechanism.

a. Budget Approval of MIRAD:

- i. Distribution companies around the world are well-augmented with the necessary infrastructure and dedicated staff to perform efficient market operations within the competitive electricity markets. Similarly, the XW-DISCOs are required to have dedicated staff with specialized knowledge and competency to inter alia administer the bilateral contracts portfolio, manage the regulatory affairs pertaining to competitive markets and efficiently perform requisite market operations required in the competitive regime. Furthermore, it is also inevitable for DISCOs to perform short and medium-term demand forecasting accurately in power market envisaged for Pakistan.
- ii. To complement this important requirement, a dedicated department to act as an interface between the DISCOs and the Competitive Trading Bilateral Contracts Market (CTBCM) has been envisaged in the CTBCM Implementation Roadmap. Creation of this dedicated market department is also part of the CTBCM Detailed Implementation Plans submitted by DISCOs to NEPRA. This department will initially assist DISCOs in implementation of CTBCM planned activities of DISCOs and later perform competitive market related functions of DISCOs as envisaged in the approved plan. This department will become a dedicated central interface between DISCOs and the competitive electricity market equipped with staff having specialized knowledge and competency and supported by necessary infrastructure to first implement and then administer the market operations including bilateral contracts portfolio management, short and medium term, demand forecasting, transmission planning, and overseeing legal and regulatory affairs.
- iii. To help DISCOs in this activity, CPPA-G being central facilitator, arranged consultative sessions for DISCOs in Dec 2019 and Feb 2020 wherein DISCOs had detailed joint deliberations on the suitable structure of the subject department. Consequently, DISCOs jointly prepared in consultation with CPPA and its international consultants, a proposal encapsulating structure of the department titled as "Market Implementation and Regulatory Affairs Department (MIRAD)" to be created within each DISCOs before the start of CTBCM.
- iv. The proposal has been endorsed by the Ministry of Energy (Power Division) vide letter No. PF No. PF-05(04)/2012 dated December 01, 2020 vide which MoE (PD) directed PEPCO to forward the proposed structure to DISCOs BoDs for approval of staffing and respective perks & privileges. Consequently, PEPCO has forwarded the structure endorsed by MoE (PD) vide

- letter dated December 09, 2020 to the BoDs of the DISCOs for approval and implementation of the same.
- v. The MoE (PD) has also recommended to sanction additional financial benefits to the staff positioned within the MIRAD (up to 40% of basic pay) as this will be a highly technical work and will require some incentive to recruit and retain competent staff.
- vi. The BoD PESCO in its 153rd meeting held on 10-02-2021 has principally approved the MIRAD department (17 New and 3 existing positions) with initial financial implication of Rs. 47.136 Million plus 40% special allowance per annum.

Total Number of Management Positions in MIRAD

- vii. The structure of MIRAD has a total of 20 managerial positions of different cadres ranging from BPS-20 to BPS-17. The break-up of these positions is as following:
 - Head of Department (BPS-20): 1 Position
 - Managers (BPS-19) : 3 Positions
 - Deputy Managers (BPS-18) : 6 Positions
 - Assistant Managers (BPS-17) : 10 Positions
- viii. Out of 20 positions, 03 Positions already exist in various quarters under the current sanctioned strength while 17 Positions are new and required to be created exclusively under MIRAD. The details pertaining to the existing positions and new positions is as under:
 - i. Director General MIRAD (01 Position)
 - ii. Manager Contract Management and Regulatory Affairs (01 Position Alregenists)
 - iii. Manager Planning and Forecasting (01 Position)
 - iv. Manager Legal / Contracts (01 Position)
 - v. Deputy Manager Contract Management (01 Position Already Exists)
 - vi. Deputy Manager Regulatory Affairs (01 Position)
 - vii. Deputy Manager Demand Forecasting (01 Position)
 - viii. Deputy Manager Transmission Planning (01 Position)
 - ix. Deputy Manager Finance (01 Position)
 - x. Deputy Manager Legal / Contracts (01 Position)

- xi. Assistant Manager Contract Management (02 Positions)
- xii. Assistant Manager Transmission Planning (02 Positions)
- xiii. Assistant Manager Demand Forecasting (01 Positions Already Exists)
- xiv. Assistant Manager Regulatory Affairs (01 Position)
- xv. Assistant Manager Finance (02 Positions)
- xvi. Assistant Manager Admin (01 Positions)
- xvii. Assistant Manager Demand Forecasting (01 Positions):
- b. A comparison of PESCO sanctioned strength and actual working strength is as under:

Description	Sanctioned Working Strength Strength		Shortfall	% Shortfall
Qualified Professional	400	382	18	5%
Staff	27,868	12,839	15,029	54%
Total	28,268	13,221	15,047	53%

Number of Employees	Existing	Dec-21 (Proj.)	Dec-22 (Proj.)	Dec-23 (Proj.)	Dec-24 (Proj.)	Dec-25 (Proj.)
1. Qualified Professionals	382	453	550	571	587	577

4. Retirements	817	761	888	880	845	783
5. Net Total (3-4)	13,221	19,951	24,782	26,120	27,152	27,428

Multi-year Tariff requirement has been laid down in the proposal by "the rationale used is that the number of consumers in Jan 2020 and Jan 2021 were compared and the increase was worked out. From this increase, we found out the number of Operation Sub Divisions, which are over and above yard stick and would require to be bifurcated. There are 19-such sub divisions which will be created afresh as a result of bifurcation and would require 1482-No of new employees such recommendation will be finalized after third party study under process. The No of retirements in 2021 to 2025 have been subtracted and new hiring of qualified professionals and staff have been worked out accordingly.

For professionals only SDOs and R.Os have been included as per yard stick. New hiring for grid stations which is for one time has also been included. However, it is essential to mention here that these are only projections based on rationale and may be reviewed in the light of ground real for the purpose of change in number or categories of staff for which third party study is under process. Furthermore, recruitments in PESCO are mostly dependent on the NOC of Govt of Pakistan / Minister of Energy (Power Division) so far.

However, PEPCO has recently devolved all the matters regarding HR affairs of DISCOs being processed by PEPCO to DISCOs vide letter No. GMHR#5778-5810, dated 14-01-2021 conveying that respective BoDs should exercise the powers of the MD PEPCO which will bring an opportunity for the Company to proceed for HR requirements through its BoD against critical requirements as and when considered necessary or unavoidable. The time frame given in the multiyear tariff proposal will be adhered and requirement will be fulfilled in progression.

PESCO is currently working on strength of 13,221 employees approximately out of which 382 are officers of different grades. The storage of the staff is main cause of losses and system constraints being faced by PESCO at present.

The backlog of the shortage / situation is that there have been repeated ban on recruitments imposed by the Govt of Pakistan. Whenever, the ban was lifted, only a restricted number of staff was allowed for employment and the Company has to suffer in terms of trained and qualified staff at all levels. No other means or source of employment was availed as such it only affected the performance in all sectors.

There is a gap of at least five years in each recruitment which could not be made as per requirements / shortage / vacant posts rather only specific (constrained category is allowed by the Ministry of Power) was appointed. The recruitment process has been hampered by different forums and agencies in the name of investigation etc and the given opportunities could not be utilized.

This factor has affected the performance overall of the Company and that of HR particularly because the aging staff could not work at optimal output and sometime meet with fatal / non-fatal accidents which is also embarrassment for the management.

Now in the future plans for multiyear tariff being filed by PESCO year 2021 to 2025 is being availed to propose progressive recruitment of around 50% per year to complete the shortfall of staff. In this regard, a proposal year-wise initially for the year Dec 2021 is projected including around 700-Grid System Operation staff which is required for GSO of newly commissioned grids waiting for minimum required staff. Moreover, such arrangement will continue till Dec 2025. The concerned authorities are requested for sympathetic consideration in this regard. It is further pointed out that 3rd party analysis of yard stick is being carried out by PESCO at present and regulator may allow to renegotiate future hiring after such study, in the meantime the number of appointment recommended otherwise are rationale and necessary.

The O&M expenses are one of the major unknowns for XWDISCOs in Pakistan due to many uncontrollable factors such as statutory implications arising out of increase in salaries (as announced by the Federal Government), increase in certain expenses due to growth in consumer base, this includes increase in maintenance expenses, meter reading expenses, whereas other expenses are directly linked to the rate of petroleum. The employees' cost includes costs related to salaries and benefits of all staff (administrative, operational and security).

To ensure an efficient, coordinated, economical distribution system and to build, maintain and operate the system more systematically, it will be employing a highly skilled and technically proficient team to manage all aspects of the distribution of power to ensure that all key commercial interests of all stakeholders are maintained, protected and prioritized.

The O&M cost needs to be bifurcated into controllable and uncontrollable cost components and the 'Uncontrollable costs' are requested to be trued-up at the end of every year and the 'Controllable costs' should be indexed every year with CPI change less agreed efficiency factor, adjustable in last two years, to pass on the benefit of system efficiency to the consumers.

Controllable Cost:

The controllable O&M costs are projected by assuming an inflation rate of 10% to 11% for each year of the tariff control period excluding the base year. The controllable cost during control period will also increase annually due to new projects (as envisaged in DM) and accordingly this new addition in per unit base cost of controllable component may be allowed in the related year in which project is planned to be completed and indexed subsequently as part of controllable cost component.

Uncontrollable Cost:

With regards to uncontrollable cost different growth rates are projected for different cost streams based on management experience. Uncontrollable cost factors could be affected by growth in employee benefits, consumer growth rates and growth in regulatory fee etc. The uncontrollable cost will also increase annually due to new projects (as envisaged in DIIP) and accordingly projected cost includes impact of new projects.

The detail of controllable and uncontrollable costs is as under:

Controllable Costs	Uncontrollable Costs
Travelling Expenses	Pay and Allowances – Existing
Office Supplies & Store handling	Rent, Rate & Taxes
Vehicle Expenses	Injuries & Damages
Power, Light & Water	Collection Expenses
Communication & Postage	Legal Charges
Advertising & Publicity	Management Fee
Subscription & Periodicals	Audit Charges
Misc. Expenses	
Bank Charges	
Insurance Premium	

Description	Test Year					Control Period			
(Un-Controllable Costs)	FY 2019	FY 2020	FY 2021	FY 2021 FY 2022 FY 2023 FY 202					
Pay and Allowances – Existing	18,547	18,837	22,576	24,871	27,614	31,350	35,262		
Rent, Rate & Taxes	199	54	170	187	215	247	284		
Injuries & Damages	37	82	130	137	143	150	158		
Collection Expenses	126	146	200	210	221	232	243		
Legal Charges	19	30	31	32	34	36	37		
Management Fee	127	177	320	352	387	426	469		
Audit Charges	3	1	5	5	5	5	5		
Sub Total	19,059	19,327	23,432	25,794	28,620	32,446	36,459		

ADJUSTMENT MECHANISM:

The following adjustment mechanism is proposed:

- a. The base year FY 2019-20 does not reflect the true cost rather showing with employees of 13,221 Nos with sanctioned posts of 28,268 Nos and accordingly factor 'N' is included to account for the new recruitments.
- b. Adjustment in Salary & Pension (including pension part of post-retirement benefit) may be linked with the Increase announced by GoP in Annual Budget on actual basis.
- c. 5% increase on account of Annual Increment may be allowed.
- d. The remaining allowances / benefits may be adjusted on the basis of CPI for controllable costs and on the basis of actual in case of uncontrollable costs.
- e. An additional variable "N" may be included to account for the New Recruitments against vacant positions and the same may be indexed as proposed above.
- f. Another variable "Z" may also be included to account for the cost relating to extra ordinary events with financial implication of Rs. 25 Million or more and the same may be indexed as well.

tariff and (ii) the average distribution margin, which would be set on the formula-based methodology.

d. PESCO'S REVENUE REQUIREMENT

- i. The Revenue Requirement of PESCO has two components i.e. pass through cost and Distribution Margin. The power purchase cost forms the major portion of the pass through cost which the company must pay on regular basis to ensure continuous flow of power in its distribution system. Distribution Margin is equally important as PESCO must earn sufficient distribution margin and adequate stream of cash flow to maintain its system, discharge its financial commitments, invest to expand and maintain the network and to provide a reasonable return to the sponsors on their investment.
- ii. In view of the above, PESCO is submitting the tariff petition for the period FY 2020-2 No 2024-25 in light of the Nepra (Amendment) Act 2018. Following are the cost categories to be considered as per the Tariff Guidelines:
 - A) Power Purchase Price.
 - B) Distribution Margin.
 - C) Prior Year Adjustment.
 - D) Turnover Tax and pending CPPA Overhead.
 - E) Supplemental Charges.
 - F) AJ&K Tariff/Subsidy.
 - G) Inadmissible Input Tax.
 - H) Recovery of Revenue on Rs. /KW basis and increase in Fixed Charges.
 - I) PESCO Review Motion adjustment for FY 2018-19 & FY 2019-20 as per Authority's direction.

Comments of

POWER PURCHASE PRICE (PPP): A)

PESCO pays Power Purchase Price in Rupees per Kwh and Rupees per KW per month for the electricity it procures from CPPA-G or from other sources through CPPA-G, which would include the generation and transmission charges (regulated by NEPRA). This Power Purchase Price, adjusted for PESCO's distribution losses, would then be simply added to PESCO's overall distribution margin to work out retail tariff. Thus, the cost of the purchased electricity would be "passed through" to consumers through the retail tariff, without affecting PESCO's distribution margin.

While passing through the PPP, all distribution companies experience some level of distribution losses, defined as the percentage of the difference between the units received by the company and the units invoiced to the consumers. The PPP should thus be adjusted such that PESCO would be compensated for some losses, without hindering the incentive to eliminate the total losses.

PPP = Unadjusted PPP

1-L

Where;

- Unadjusted PPP is the cost of electricity supply charged by CPPA or any other source at any given time;
- L is the target T & D losses for the year, defined as a percentage of purchased units, in accordance with a schedule established for the control period.

For the tariff control period, the following target of Transmission & Distribution losses is proposed for the consideration of the Authority:

Year	Transmission Loss	Distribution Loss	T&D Losses
2020-21	04%	34%	38%
2021-22	04%	33%	37%
2022-23	04%	32%	36%
2023-24	04%	31%	35%
2024-25	04%	30%	34%

Based on the above formula, the compensation for T&D losses would be automatically adjusted for any changes in the power purchase cost.

The working of the power purchase cost for the Tariff Control Period would be projected and approved by NEPRA based on the information provided by CPPA-G, NTDC & DISCOs with regards to generation plan (including existing plants and future plants), target of transmission and distribution losses and assumptions based on fuel prices, dollar devaluation and local and international CPI etc.

The actual PPP is regulated by NEPRA over the period, thus any subsequent increase / decrease in the PPP determined by NEPRA is adjustable as proposed in the petition.

All the Power generated from different sources is procured by Central Power Purchasing Agency (CPPA) on behalf of DISCOs at the rates as per Authority's Determinations. The major sources of Power and their share in Energy are as under:

Description	Generation					
Description	GwH	Share				
Hydel	45,480	33%				
Thermal RFO	22,545	16%				
Thermal Gas	23,192	17%				
Others	17,989	13%				
RLNG	28,802	21%				

From the above table it is clear that 21% of total generation is expected on RLNG, Similarly, share of RFO (Thermal & Gas) is 33%, which means that variation in generation mix and oil prices will have greater impact on the cost of generation and will ultimately affect the consumer-end tariff.

Following the previous generation trend, the PPP has been projected for the tariff control period is as under:

Description	FY	FY	FY	FY	FY	FY
Description	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Energy Charges (Rs)	90,386	88,790	85,453	83,456	81,498	79,594
Capacity Charges(Rs)	100,928	103,257	114,331	124,547	134,661	145,183
UOSC (Rs)	5,598	7,085	7,265	7,411	7,596	7,786
Market Operator Fee	54	68	72	78	84	90
PPP (Rs /Kwh) (including MOF)	13.31	13.10	13.25	13.41	13.55	13.70
USOC - Wire Business (Rs.)	18,751	22,013	24,571	27,623	31,056	34,076
USOC - Wire Business (Rs./Kwh)	2.07	2.33	2.49	2.68	2.88	3.02

The actual PPP is regulated by NEPRA over the period, thus any subsequent increase / decrease in the PPP determined by NEPRA may be adjusted on monthly/quarterly/biannual basis. The PPP is projected at Rs. 13.10 / Kwh for FY 2020-21 excluding Wire Business and Rs. 15.43/Kwh including Wire Business for FY 2020-21.

ADJUSTMENT MECHANISM:

As per the existing Tariff Methodology, Power Purchase Price (PPP) references are subject to adjustment on monthly and quarterly basis. The adjustment on account of variation in fuel cost component of PPP is undertaken on monthly basis and reflected uniformly in the consumers' monthly bill as Fuel Charges Adjustment. Whereas, adjustment for remaining component of PPP i.e. Capacity Charges, Transmission charges, Market Operator Fee (MoF), impact of T&D losses, and Variable O&M is to be undertaken on quarterly basis, the same mechanism may be continued, however it would be more appropriate to consider the adjustment of remaining components of PPP (apart from fuel cost component) on monthly

basis as well to make the tariff more cost reflective and to ensure timely recovery of the legitimate power purchase cost by PESCO.

B) DISTRIBUTION MARGIN:

The Distribution Margin consists of the following factors:

- Operation & Maintenance Expenses:
 - Operational Expenses:
 - o Salary Wages & Other Benefits
 - o Travelling Expenses
 - o Vehicle Expenses
 - o Other Expenses
 - Repair & Maintenance Expenses
 - Other Income
- Provision for bad debts
- Depreciation Expense
- Return on Rate Base

The sum of the O&M Cost, Depreciation, Provision for Bad Debts and RORB minus Other Income results in PESCO's Distribution Margin, dividing this by the total units sold yields the average Distribution Margin per Kwh. The actual DM of PESCO for FY 2019-20 was Rs. 3.48 per unit and from FY 2020-21 to FY 2024-25, it is proposed as under:

Rs. per Unit

Description	FY 2020-21	FY 2021-22	FY 2022-23	FY 2023-24	FY 2024-25
O&M Cost	2.72	2.86	3.03	3.28	3.51
Provision for Bad Debts	0.78	0.70	0.79	0.80	0.80
Depreciation	0.35	0.38	0.41	0.43	0.43
Return on Rate Bae	0.66	0.72	0.81	0.87	0.88
Less Other Revenue	(0.40)	(0.42)	(0.45)	(0.47)	(0.49)
Distribution Margin	4.11	4.25	4.61	4.91	5.12

Basis of Assumption for Distribution Margin for Distribution of Electricity (Non-Sale Elements) and Supply of Electricity activities:

Salaries and wages:

Actual salaries and wages of GSO Circle, PD GSC and PD C&O has been allocated to wire business (EPS), since these circles / directorates are responsible for construction, rehabilitation, augmentation, maintenance and similar activities involved in wire business for providing electricity to the end consumers.

The XEN offices comprises of technical as well as administrative staff, the salaries of technical and administrative staff such as XEN, SDO, line man, assistant line man, line superintendents etc. have been allocated to wire business on actual basis except for meter readers, bill distributers and meter reading supervisors, and the same has been allocated to Supply of Electricity as their job description relates to billing and recovery.

Power Supply (Sale of Electric Power) comprises of actual expenditures of revenue offices and salaries and wages of meter reader, bill distributer and meter reading supervisors, since their primary role is administrative in nature comprising of billing to consumers, addition of new connections and recovery from consumers. Provision for doubtful debts is allocated to the Supply Business (Sale of Electric Power) along with partial allocation of depreciation for the furniture and fixtures, computer equipment, vehicles etc.

Moreover, the expenditure of HQ, and other offices has been allocated on the most suitable basis to wire business or Supply of Power. Based on the above assumptions PESCO O&M expenditure for FY 2018-19 (Audited), FY 2019-20 (Audited) and FY 2020-21 to FY 2024-25 (Projected) are bifurcated as under:

Rs. In Million

Financial Year	Distribution of Power (Xen/GSC/GSO/DEV/HQ etc)	Supply of Power (ROs/Others/HQ etc)	Total
2018-19	13,389	7,081	20,470
2019-20	13,662	7,256	20,918
2020-21	16,667	9,072	25,739
2021-22	18,301	9,979	28,281
2022-23	20,246	11,045	31,291
2023-24	22,857	12,462	35,319
2024-25	25,597	13,955 *	39,551

i) O&M EXPENSES

O&M expenses include Salaries & Wages, Repair & Maintenance, Travelling, Vehicle Running and Other Expenses. Based on the impact of increase in inflation, salaries and other allowances, the Audited O&M Expense for FY 2018-19 and FY 2019-20 are Rs. 20,470 Million and Rs. 20,918 Million respectively and the projections for FY 2020-21 to 2024-25 are as per detail below:

COMPARISON OF OPERATING AND MAINTENANCE EXPENSES

		FY 2018-19		
DESCRIPTION	NEPRA Determination	Actual Total	Variance	Actual
Salaries and Benefits	16,708	18,836	(2,129)	18,546
Repair and Maintenance	795	788	7	729
Traveling Expenses	252	234	18	231
Vehicle Expenses	183	167	16	160
Other Expenses	876	891	(14)	803
Total: -	18,814	20,917	(2,103)	20,469

g. The O&M part of Distribution Margin shall be indexed with CPI subject to adjustment for efficiency gains (X factor). Accordingly, the O&M will be indexed every year according to the following formula:

 $O\&M_{Rev} = [O\&M_{Ref} (Controllable Cost) * {1+(\triangle CPI-X)}] + Uncontrollable Cost (Actual)+N+ Z$ Where:

O&M (Rev) = Revised O&M Expense for the Current Year.

O&M (Ref) = Reference O&M Expense for the Reference Year

 Δ CPI = Change in Consumer Price Index published by Pakistan Bureau of Statistics latest available on 1st July against the CPI as on 1st July of the Reference Year in terms of percentage.

X = Efficiency factor

N = New Hiring including indexation of controllable and uncontrollable costs.

Z = Cost relating to extraordinary events including indexation with financial impact of Rs. 25 Million or more.

ii) REPAIR & MAINTENANCE EXPENSES:

Repair and Maintenance expenses have been assumed @ around 2% of the net Fixed Assets in operation. PESCO has to maintain its old and over loaded system in order to ensure uninterrupted power supply to the consumers, moreover cost of material has also increased due to inflationary pressure. Therefore, Repair & Maintenance expenditure has been projected as Rs. 1,150 Million for FY 2020-21, Rs. 1,208 Million for FY 2021-22, Rs. 1,268 Million for FY 2022-23, Rs. 1,331 Million for FY 2023-24 & Rs. 1,398 Million for FY 2024-25. Repair and Maintenance budget is required for the following:

- 1. Repair of Power Transformers damaged at Grid Stations and controlling Breakers, Isolators etc.
- 2. Repairs and Maintenance of 3,722 KM Transmission Lines.
- 3. Repair & Maintenance of 1,116 Nos 11KV feeders.
- 4. Repair & Maintenance of 37,220 KMs HT Lines.
- 5. Repair & Maintenance of 45,311 KMs LT Lines.
- 6. Repair & Maintenance of 78,759 Nos of Distribution Transformers

a. Adjustment in Travelling Expenses may be linked with the CPI.

iv) VEHICLE RUNNING EXPENSES:

PESCO has a fleet of more than 720 vehicles, most of the vehicles are old and have completed useful life of 10 years & need major overhauling. Financial position of PESCO does not allow us to replace them with new vehicles. We are left with no option but to maintain them. Moreover, the cost of POL has increased manifolds & the cost of parts of vehicles is also increasing due to inflation. A part from above PESCO's distribution system is spread all over Khyber Pakhtunkhwa Province and it has to be maintained, hence PESCO requires funds for running of vehicles as well as for their maintenance.

vi) DEPRECIATION

Depreciation is calculated on the basis of the value of existing Assets plus the additions in assets during the year. The assets are depreciated on straight line method as per utility practice i.e land @ 0 %, buildings and civil works @ 2%, Plant and machinery @ 3.5%, office equipment and mobile plant @ 10% and other assets @ 10% based upon these assumptions the figure for depreciation has been worked as under:

ADJUSTMENT MECHANISM:

The following adjustment mechanism is proposed:

a. Adjustment in Depreciation Expenses may be linked with the Gross Fixed Assets in operation.

vii) PROVISION-FOR-BAD DEBTS:

PESCO is pursuing the recovery of arrears from its consumers but due to the worst law and order situation in Khyber PakhtunKhwa and non-payment culture particularly the attitude of consumers residing in areas adjacent to TESCO, the recovery campaign is affected. Administrative & Political obligations do not allow us to take severe action against the defaulters. Moreover, disconnection creates law and order situation in terms of road blockade, blast of transmission to and attacks on PESCO staff, Grid Stations and offices.

Accordingly, provision for doubtful debts is made on the basis of ageing formula agreed with the Auditors and approved by BoD PESCO in its 75th meeting. Actual provision for FY 2018-19 was Rs. 5,979 Million & Rs. 4,734 million for FY 2019-20.

RECOVERY PLAN

- 1. Prompt billing
- 2. Recording Correct Meter Reading
- 3. Delivery of bills in time.
- 4. Reconciliation of billing disputes with Govt: agencies.
- 5. Timely debit of Audit Notes.
- 6. Prompt disconnection of running defaulter consumer
- 7. Installation of ABC cables on high loss feeders in order to control theft of energy & to make effective disconnection so that defaulter consumers may be compelled to make payment of arrears.
- 8. Out of court settlement of disputed cases.
- 9. Recovery through PESCO Police from defaulters.
- 10. Kuli Kachehri on weekly basis are being held on circle level to redress the genuine grievances of the consumers on the spot and to recover the outstanding dues from the defaulters.

- 11. Combing of feeders is being carried out through PESCO field formations in their respective areas aiming at removal of direct hooks, replacement of sluggish and defective meters, proper meterization and accurate billing through MMR system so as to eliminate theft of energy, bring the defaulter as well as un-registered consumers in billing network and to recover the legitimate arrears of PESCO.
- 12. Posting of Recovery Magistrate for recovery of outstanding arrears.
- 13. Recovery under Land Revenue Act, by Tehsildar Recovery Officer.
- 14. Fixing of responsibility of recovery of arrears a per following detail: -

Officers	Defaulters							
Onicis	Running	Permanent Disconnected						
SDO	Upto Rs. 500,000/-	Upto 1,00,000/-						
XEN	Above Rs. 500,000/- to 10 Lac	Above Rs. 1,00,000 to 10 Lac						
SEs	Above 10 Lacs	Above 10 Lacs						

The detail of provision is as under:

			Supply o	f Power I	Business				
	Audited	Audited		T	ariff Control Pe	eriod		Avg. for	
Description	2018-19	2019-20	2020-21 Act/Pro.	2021-22 Proj.	2022-23 Proj.	2023-24 Proj.	2024-25 Proj.	Tariff Control	
		Base Year	Test Year	Y2	Y3	Y4	Y5	Period	
Recovery %age	88.4%	87.7%	91%	92.5%	92.9%	93.4%	94.1%	92.78%	
As Sales %age	5.6%	3.7%	4.7%	3.9%	4.2%	4.2%	4.0%	4.2%	
Provision for Bad debts	5,979	4,734	7,363	6,962	8,189	8,663	8,962	8,028	
% Increase/ (Decrease)			56%	-5%	18%	6%	3%		

viii) RETURN ON RATE BASE (RORB):

NEPRA allowed WACC to PESCO 10.95% for FY 2018-19 and 15.02% for FY 2019-20 in its tariff determination for FY 2018-19 & FY 2019-20, PESCO has reservation on the calculation of allowed WACC of 10.95%. PESCO has calculated WACC of 14.06% based on the following calculations:

Description	Loan Amount (Mln. Rs.)	Rate of Interest Taken by NEPRA FY 2019-20	Actual Rate of Interest	Actual Exchange Risk Coverage	Modified Rate of Interest
ADB- Trench I	847		11%	6.00%	17.66%
ADB- Trench II,III,IV	4,600		8.20%	6.80%	15.56%
ERRA	1,362	14.97%	1%	Dollar based loan	1%
Total	6,809			-	13.18%

^{*}Weighted Average Cost of Debt for FY 2019-20 include 3 month's Kibor plus 2% spread.

By incorporating the above adjustment of ERC, the calculation of WACC and RORB will be as under:

$$WACC = [16.11\% * 30\%] + [13.18\% * 70\%] = 14.06\%$$

The Authority has taken the assumptions without even considering the economic conditions of KPK and the effect of war on terror on the business environment in which PESCO is providing services and hence it needs to be reconsidered. NEPRA used different assumptions for the calculating of WACC in every two to three years from FY 2014-15 to FY 2019-20 instead of applying the assumptions consistently, thereby reducing the amount of WACC on one pretext or the other, which needs to be reconsidered. The Authority is requested to apply the assumption consistently for a reasonable control period instead of changing it every third to fourth year.

Firstly, for the assessment of ROE component, weighted average yield on 05 years Pakistan investment bond (PIB) as of June 13, 2018 has been considered as risk free rate which is 8.4795% for FY 2018-19 & 13.7687% for FY 2019-20. Moreover, the rate of return on KSE-100 index over a period of 8 years was around 15% (same figure as was used in previous determination and no detail provided neither in respect of base years nor any other detail to comment). The same translated in to

risk premium of around 6.521% for FY 2018-19 and 1.23% (very low) for FY 2019-20 and on the other hand, the risk premium used by different brokerage houses of the country ranges from 6% to 7%.

Authority assumed market risk premium of 6.521% & 1.23%(very low) which may be reconsidered as only Karachi generates almost 60% of the business activity as compared to Peshawar which is 200% folds higher. These assumptions were considered without even considering the economic conditions of KPK and the effect of war on terror on the business environment in which PESCO is operating. Accordingly, the area of operation and the economic conditions of the area needs to be considered and necessary adjustments may be made to the risk premium because of the fact that the market in Khyber Pakhtunkhwa is riskier than that of other parts of the country and a margin of 2% to 3% may be added to the new base line. The linking of return with Transmission & Distribution losses margin allowed by Authority does not hold ground as the same has been substantially reduced by the Authority together with heavy deduction of the allowed provision for bad debts of FY 2015-16. Moreover, the Power Purchase Price is a pass through item and relates to the cost and has no co-relation with return which is for the equity holders.

Another assumption was made by Authority for measurement of Beta, in order to arrive at a suitable measure. Authority conducted an in house analysis and arrived at appropriate measure of 1.10 and it is the same as was used during 2015-16, which means the economic conditions are stable even in the wake of pandemic COVID 19, hence needs to be reconsidered.

Moreover, to ascertain the cost of debt Authority has decided to take cost of debt as 3 months KIBOR+2.00% spread (200 basis points). Since 2015-16 authority used 3 months KIBOR+2.75% spread, however, the authority used 2.00% spread for FY 2017-18 &FY 2018-19 without any reason and it only seems to reduce the return of PESCO. The Authority is requested to apply the assumptions consistently and firstly the cost of debt may be allowed on the basis of the outstanding loans of PESCO otherwise may allow a spread of 2.75% as was previously allowed during FY 2016-17 and FY 2017-18.

By considering the spread of 2.75% the cost of Debt would be revised to 9.68% for FY 2018-19 i.e. 3 months KIBOR of 6.93% as of July 3rd July, 2018 plus 2.75% spread, similarly for FY 2019-20 it should be 16.63% i.e. 3 months KIBOR of 13.88% as of 25thJuly, 2019 plus 2.75% spread (actual 3 months KIBOR of 25thJuly, 2019 is 13.88% instead of 12.97% as used by Nepra).

As per amortization schedule provided by Economic Affairs Division (EAD) for ADB Trench-I, II, III & IV PESCO has to pay the interest charges as well the exchange risk and Principal repayments.

PESCO has no other source of revenue except Tariff to pay off the principal, interest and exchange risk payable to EAD except for consumer end Tariff and if not allowed, it will in any way effect the consumers as the same will be passed in the form of deficit financing resulting in financial hardship to the consumers.

PESCO is of the opinion that return should be adequate enough to not only cover the cost of debt but also to cater for the exchange rate parity as well as reasonable return to the equity holders. Authority is therefore requested to allow RORB @14.06% WACC, including debt as per following calculations and further projection is also being made for the tariff control period:

C) PRIOR YEAR ADJUSMENT

a. Equity Injection in the shape of Markup on Loan:

The following loans were approved by Ministry of Finance, Govt of Pakistan through Power Holding Private Limited with sovereign guarantee of Government of Pakistan to ensure the un-interrupted power supply across the country.

Rs. in Billion

TFC's carry interest of Kibor plus a spread of 1% to 3.5%. Authority is therefore requested to allow Financial Charges of Rs. 2,870 Million for FY 2018-19, Rs. 836 Million for FY 2019-20 and Rs. 943 Million for FY 2020-21 as per details provided in Form 22. PESCO has to pay principal amount along with interest chargeable on these loans.

AND THE PERSON

In addition Section Officer (PF) communicated vide Memo No. PF.5(4)/2012-Vol X (copy enclosed Annex-F) that the Government of Pakistan has provided credit covers to the IPPs by issuing sovereign Guarantee to cover the non-payment of power purchase price by the DISCOs. The Government of Pakistan provide the financial assistance to DISCO's by paying the liability of the DISCO's towards IPP's. The mode adopted by Government of Pakistan includes the direct equity injection to DISCO's equivalent to the amount paid to the IPP's or arranging the loans from commercial banks swapping the DISCO's liability toward IPP's. The liability toward IPPs is subject to financial charge ranging from 3 to 6 months KIBOR plus 2% to 4.5%.

The Ministry of Finance has paid financial charges of Rs. 9,347.649 million up till June 30, 2018 on loan of Rs. 7.4 Billion, 25 Billion and 30 Billion. As per decision of the Ministry of Finance, since this amount has been paid on behalf of the DISCO's, therefore each DISCO is required to acknowledge the expense incurred and book the same as the equity. The share of PESCO has been allocated at Rs. 2,094 Million.

The equity injection of Rs. 2,094,239,584 has been approved by the BoD PESCO in its 135th meeting held on 01-08-2019. Moreover, PESCO was also advised to approach NEPRA for inclusion of the said markup payments in its revenue requirement with reference to GOP (Finance Division) Directions communicated vide CPPA-G letter No. 10180-89 dated 08-05-2019 (copy enclosed Annex-G).

b. FINANCIAL CHARGES ON TFCS:

The Economic Coordination Committee of the Cabinet Considered the summary dated 31 May 2017 submitted by the Ministry of Water & Power (Now Ministry of Energy (Power Division)) regarding issuance of Sovereign Guarantee by Ministry of Finance in respect of syndicated loan finance facility amounting to Rs. 41 Billion for the power sector and decided as under:-

Power Holding (Private) Limited would be responsible for arranging loan amounting to Rs. 41 Billion. The amount would be utilized for the purpose of funding the repayment liabilities of the Distribution Companies through arrangement between Power Holding Private Limited and DISCOs. Appointment of the financing facility shall be made to the DISCOs according to their respective liability towards power purchasers. Ministry of Finance Would provide Sovereign guarantee for repayment of loan as well as interest for the facility amounting to Rs. 41 billion, arranged through a consortium of local banks. The servicing of mark up principal repayments and all other amounts

becoming due and payable in respect of the subject facility shall be the responsibility of the respective DISCOs.

Accordingly, CPPA has issued various Debit notes cumulatively amounting to Rs. 2.5 Billion in compliance with the decision of ECC (ECC-60/14/2017 dated 07-06-2017) to PESCO for booking of the same as liability in PESCO books on account of long term loans.

Detail of Mark-up/ Debit notes issued by CPPA are hereunder:

Reference	Date	Rupees
PPA-65/PESCO-04	Jun-18	631,754,766
PPA-169/PESCO-04	Dec-18	343,732825
PPA-169/PESCO-04	Jun-19	209,209,311
PPA-07/PESCO-04	Jul-19	279,468,289
PPA-153/PESCO-04	Dec-19	590,837,015
PPA-374/PESCO-04	Jun-20	484,753,753
TOTAL		2,539,755,959

Authority is requested to consider the matter in the light of ECC decision and allow the same to PESCO.

UNIFORM SEASONAL PRICING STRUCTURE (USPS):

The Federal Government has announced uniform seasonal pricing structure vide S.R.O. 1379(1)/2019 dated 12-11-2019 (Copy enclosed at Annex-E) for the period November 2019 to February 2020 on units consumed above the consumption made during the same period / month last year. Accordingly, PESCO has charged subsidized rates to the specified consumers and submitted USPS subsidy claims of Rs. 707.50 Million to Cost Accounts Officer, Subsidy Cell, Ministry Energy (Power Division) during the period Jan 2020 to Mar 2020. The USPS subsidy claims were returned by the Cost Accounts Officer, Subsidy Cell, Ministry of Energy (Power Division) with the remarks that the said S.R.O does not speak of USPS subsidy by the Federal Government and the matter may be taken up with CPPA-G for settlement. PESCO is facing revenue shortfall of Rs. 707.50 Million on the basis of subsidized rates charged to the consumers and the recovery of the revenue shortfall is still pending and it is requested to include the same in PESCO prior year adjustment for FY 2019-20.

Authority is therefore requested to consider the same as the respective 138 MKwh of USPS have been used by the Authority for calculation of regulatory costs & recoveries and accordingly the revenue shortfall faced by PESCO for Rs. 707 million may be allowed.

PRIOR PERIOD ADJUSTMENT

PESCO has calculated the prior year adjustment pertaining to unrecovered distribution margin and prior year adjustment amounting to Rs. (3,151) million as per the following calculations:

	Prior Year Adjustments	FY 2019-20
	July 2019 to December 2019	
	Units Purchased	7,826
	Notified T&D losses	31.95%
	Regulated Units Sold	5,325
	January 2020 to June 2020	
	Units Purchased	6,967
	Notified T&D losses	32.0%
	Regulated Units Sold	4,741
1.	DM (FY 2019-20)	
	DM Allowed	23,376
	DM Recovered	20,032
	Under Recovered	3,344
2.	Other Income (FY 2019-20)	
	Allowed	(2,940)
	Actual	(3,467)
	Under/(Over) Recovery	(527)
3.	Sales Mix Variances	
	FY 2019-20	(5,228)
4.	PYA	
	PYA over recovered (FY 2018-19)	(4,455)
5.	Turn over tax	3,008
	Total Prior Period Adjustment	(3,858)
6.	Uniform Seasonal Pricing Structure Subsidy (USPS)	707
	Net Prior Year Adjustment	(3,151)

Authority is requested to allow Rs. (3,151) million as prior year adjustment.

D) TURNOVER TAX AND PENDING CPPA OVERHEAD

i. TURNOVER TAX:

Authority in its determination dated 11th December 2020 under the para37.4allowed turn over tax paid by PESCO for FY 2016-17 and FY 2017-18, however turn over tax paid by PESCO during FY 2018-19 and FY 2019-20 was not allowed by the Authority. Accordingly, it is submitted that PESCO has already paid the turn over tax amounting to Rs. 1,432 Million and Rs. 1,576 Million during FY 2018-19 and FY 2019-20, which has already been included in prior year adjustment ab Moreover, during FY 2020-21 PESCO has paid turn over tax of Rs. 1,662 Million up to March,2021. The turnover tax projected for FY 2020-21 to FY 2024-25 are as under: -

		S	Supply of Pow	er Business			
	Audited		Ta		· Avg. for		
Description	Base Year	Test Year	Y2	Y3	Y4	Y5	Tariff Control
• ·	2019-20	2020-21 Act/Pro.	2021-22 Proj.	2022-23 Proj.	2023-24 Proj.	2024-25 Proj.	Period
Turnover Tax	1,576	2,521	2,684	2,899	3,102	3,359	2,913
% Increase/ (Decrease)		60%	6%	8%	7%	8%	

. Still a seeke

The detail of actual turnover tax payment is as under:

S.No.	Month of Payment	FY 2016-17	FY 2017-18	FY 2018-19	FY 2019-20	FY 2020-21

6	March		167	361		433
7	April				368	
8	May				233	
9	June		300	263	· · · · · · · · · · · · · · · · · · ·	.01
10	At source deduction/adjustment	107	196	83	270	
	Total	840	1,183	1,432	1,846	1,662

ii. CPPA OVER HEAD

PESCO has already requested in its Review Motion filed with the Authority dated 21-12-2020 against its Tariff Determination for FY 2018-19 & FY 2019-20 that Authority has deducted Rs. 99 Million on account of PEPCO management fee for FY 2016-17 and FY 2017-18 considering the fact that the same was principally agreed by the Authority in PESCO Review motion for FY 2016-17 and FY 2017-18, accordingly it is again requested to reconsider the decision and allow the same to PESCO as it has already been incurred, if it is to be disallowed then the same should be disallowed prospectively rather than with retrospective implications.

Moreover, the deduction of Rs. 96.27 Million made from Other Expenses of FY 2018-19 may be reconsidered as it is the management fee paid by PESCO on account of other services as well e.g. to PITC etc. and includes only Rs. 46.75Million on account of PEPCO management fee.

Authority is therefore again requested to allow Rs. 49.52 Million other than PEPCO management fee and also allow PEPCO management fee of Rs. 99 Million for FY 2015-16 and FY 2016-17 and Rs. 46.75 Million for FY 2018-19.

E) SUPPLEMENTAL CHARGES

NEPRA has allowed offsetting the Late Payment Charges (LPC) recovered from the consumers against the Late Payment Invoices of markup on delayed payments i.e supplemental charges raised by CPPA since FY 2014-15 yet the same is not enough to pay off the supplemental charges completely.

CPPA is charging supplementary charges to PESCO on account of delayed payments to IPPs and the shortfall is as under:

				Rs. In Billion
Year	Supplemental Charges	Late payment Charges from	LPS Collection	Shortfall
		Consumers	from	
			Consumer	's
2009-10	1.002	0.669		0.333
2010-11	3.831	0.854		2.977
2011-12	5.596	1.074		4.522
2012-13	5.563	1.386		4.177
2013-14	9.639	1.373		8.266
Sub Total:	25.631	5.356		20.275
2014-15	4.941	1.637	1.118	3.304
2015-16	2.042	1.451	1.189	0.591
2016-17	2.621	1.595	1.233	1.026
2017-18	2.846	1.839	1.325	1.007
2018-19	7.973	2.044	1.290	5.929
2019-20	13.011	3.084	1.354	9.927
Sub Total:	33.434	11.65	7.509	21.784
Grand Total	Rs.59.065	Rs. 17.006	Rs. 7.50	

The above reveals that PESCO has recovered Rs. 7.509 Billion as LPS from consumers since FY 2014-15 to FY 2019-20 against the actual Supplemental Charges of RS. 59.065 Billion which is not enough to pay off the same. Moreover, with increasing T&D losses coupled with low recoveries, it stands as one of the major contributors to the circular debt. Coupled with unfair tax charges by FBR on electricity sold to AJ&K, along with GST charged by CPPA-G on electricity

being sold to PATA, the situation becomes even more precarious, as it deprives the DISCO of much needed cash flow, which could be used in other development projects. It is pertinent to mention here that as on 31-12-2020, Tariff Differential and Other Subsidies amounting to Rs. 100.1 Billion are receivables from the federal government. On one hand, the non-payment/ late payment of subsidy adversely affecting the cash flow position of PESCO, but also adding to the Supplemental Charges (Late Payment Charges) demanded by CPPA-G. So far, Rs. 59.363 Billion (up to June 2020) have been charged because of Supplemental Charges by CPPA-G.

Authority is therefore requested to allow the same to PESCO.

F) AJK TARIFF/SUBSIDY

According to the meeting held on 08-12-2015 under the chairmanship of Secretary Ministry of Energy (Power Division) Islamabad vide section officer letter No. PF-05(19)/2013 dated 11-02-2016 where in it was decided that, in the light of clause 5.2 b of the Mangla Dam Raising Agreement, executed between Ministry of Water & Power (Now Ministry of Energy (Power Division)), Wapda & Government of AJ&K, tariff beyond September 2003, for AJ&K is to be fixed by GoP on the recommendation of a sub-committee notified by Ministry of Kashmir Affairs & Northern Areas and Frontier Regions (Now Ministry of Kashmir affairs and Gilgit Baltistan). Accordingly, the Sub-Committee constituted recommended that the Tariff of AJK may be linked with the domestic tariff as applicable for 1-100 units category because of the fact that 80% of the AJK consumers are domestic. It is therefore requested in the Review Motion for FY 2015-16 that the recommendation of the subcommittee may be re-considered and accordingly be allowed as the same has not been allowed by the Authority. It is pertinent to mention here that an amount of Rs. 18,944 Million is receivable from GoAJ&K (as on 31-03-2021) as GoAJ&K is only paying Rs. 2.59/kwh to PESCO as against the notified tariff of Rs. 15.90/Kwh and for Time of Use Peak 21.60/Kwh and Off Peak Rs. 14.70/Kwh upto February, 2021 and from February 2021 onward notified tariff Rs. 17.85/Kwh and for Time of Use Peak 23.55/Kwh and Off Peak Rs. 16.65/Kwh.

In compliance to Nepra Directives regarding taking up of issues of outstanding receivables on account of tariff of AJ&K, it is submitted that the ECC of Cabinet in its meeting held on June 10, 2019, considered the cash and non-cash settlement for Power Sector; Rs. 3/Kwh Subsidy announced by the Prime Minister for the industrial Sector and AJ& K dues, and approved proposal at para 8 (a) and 8 (b) of the summary with modification, vide decision no ECC 243/20/2019 dated June 19,2019, the relevant portion is reproduced as under:

"(b) On account of AJ&k Receivables of three DISCO's ie. Rs. 119.05 billion (IESCO Rs. 80.58 billion + GEPCO, Rs. 15.08 billion + PESCO Rs. 23.39 billion) Rs. 18.6 Billion are on account of taxes. From the balance of Rs. 100.5 billion, (119.05-18.6), Rs. 27 billion will be adjusted as cash @ Rs 9 billion per year, Rs. 16 Billion as non-cash against the relent loans for the aforementioned DISCOs and the balance Rs. 57.5 billion as equity in the DISCOs in the ratio equivalent to the percentage share of their outstanding liabilities against CPPA. Claims of AJ&K subsidy beyond June 30, 2019 will be dealt with in accordance with the agreement of the GoAJK". (Copy of the letter is enclosed Annex – B). Moreover, the GoP has also proposed to create a separate Distribution Company for AJK to resolve the issue regarding Tariff of AJK.

Further, PESCO has received an adjustment of Rs.4,892 million. Rs. 14,900 Million agair st AJK Receivables by adjusting foreign Relent Loans and GoP Investment (which was reduced to Rs. 50.158 Billion from Rs. 64.094 Billion) in December, 2020 vide Ministry of Energy (Power Division) letter no. PF.No.05(02)2019-20 dated 23-12-2020 (Copy of the letter attached at **Annexure-D**)

Furthermore, ECC of the cabinet vide decision No. 76/11/2019 dated 20-03-2019 decided that Power Division to facilitate AJ&K Govt. to establish regular DISCO to streamline electricity distribution in the region after seeking license from NEPRA (Copy enclosed at Annexure-C).

In pursuance of the above decision, a committee was constituted under the chairmanship of Federal Secretary, Power Division in the meeting held on 09-10-2020 and the following decisions were taken:

- 1. Power Division will facilitate Government of AJ&K for filling a reference to NEPRA for enhancement of Water Use Charges;
- Government of AJ&K will share the Draft Power Sales Agreement within one week for due diligence by Power Division to proceed ahead on amending Mangla Raising Agreement of 2003;
- 3. Consent of AJ&K Government be shared with Power Division for initiating the process for amending Mangla Raising Project Agreement;
- 4. Power Division to constitute a committee under the chairmanship of Federal Secretary Power Division to finalize detailed road map for establishing a regular DISCO at AJ&K, decide on change in WUC, and review power sales terms for modification of Mangla

- Dam agreement of 2003. The Committee will finalize/complete this assignment within two months;
- 5. AJ&K Government to share the recent study completed by Consultants for establishment of a DISCO for peer review by Power Division.
- 6. Moreover, ECC of the Cabinet in its meeting held on 17-03-2021 (Copy of the minutes attached at Annex-H) decided to constitute a committee under the chairmanship of Dr. Ishrat Husain, Advisor to the Prime Minister on institutional Reforms and Austerity to resolve the subject issue. The following issues were discussed:
 - Settlement of outstanding dues of AJ&K against DISCOs (IESCO, PESCO & GEPCO)
 - Application of Bulk Tariff for AJ&K
 - Creation of DISCO in AJ&K
 - Enhancement of Water Use Charges (WUC) for AJ&K from Rs. 0.15/Kwh to Rs. 1.10/Kwh
 - Amendments in the Mangla Rising Dam Project.
 - 7. It was decided in the meeting that on arrears of Government of AJ&K towards Discos, a committee headed by the Additional Secretary, (CF) Finance Division, Additional Secretary (II) Power Division and Secretary Finance Department of Government of AJ&K will look at the liquidation of the arrears and ensure that the future payments shall be made regularly by the AJ&K and there will be no further outlays from the Federal Government of implications of Circular Debt.
 - 8. The committee will submit its recommendations to ECC of the Cabinet for discussion/Consideration.

G) INADMISSIBLE INPUT TAX:

Nepra guidelines for the Determination of Consumer end Tariff and Tariff Determination for FY 2017-18 allows for the claim of actual tax pertaining to relevant financial year. During FY 2018-19 & FY 2019-20 due to change in sales tax regulations an amount of Rs. 3,315 Million and Rs. 2,628 Million respectively as Input Tax credit is not admissible under section 8(2) of Sales Tax Act, 1990 read with Rules 25 of Sales Tax Rules relating to exempt supplies and resulted in increase of Power Purchase Price as per applicable IFRS. The same may be allowed as per actual amount paid by PESCO.

H) RECOVERY OF REVENUE ON RS. /KW BASIS AND INCREASE IN FIXED CHARGES.

The authority at para 41.1 of the supply of power determination FY 2018-19 & FY 2019-20 stated and reproduced as under: -

"The present consumer end tariff design is of volumetric nature whereby major portion of the Power Purchase Price (PPP) is charged / recovered from the consumers on unit basis i.e per KWH and only a small amount of the total PPP is recovered on MDIs basis. The authority considering the increased quantum of capacity charges, and the present volumetric nature of tariff, has decided to increase the rate of fixed charges currently applicable to certain categories, by around 10% i.e from Rs. 360/KW/M, Rs. 380/KW/M and Rs. 400/KW/M, to Rs. 400/KW/M, Rs. 420/KW/M & Rs. 440/KW/M respectively. However, at the same time, the Authority, not to overburden some consumers who are levied fixed charges, has adjusted their variable rate, to minimize the impact of increase in fixed charges."

PESCO has already requested during the hearing that the fixed charges should be increased and a portion of the revenue should be recovered through Rs. /Kw and accordingly the same should be increased to Rs. 1,400/KW/M, Rs. 2,600/KW/M, Rs. 2,800/KW/M & Rs. 3,000/KW/M instead of Rs. 200/KW/M, Rs. 360/KW/M, Rs. 380/KW/M and Rs. 400/KW/M respectively on the categories on which it is currently being charged with a corresponding decrease in the rate of variable charges instead of 10% increase.

I) PESCO REVIEW MOTION FOR FY 2018-19 & 2019-20 (Annex-I):

As per directions of Nepra, in PESCO Review Motion decision for Distribution of Power and Supply of Power tariff on 19th April, 2021, which was returned back by considering the fact that the determination against which Review Motion was filed has already been notified vide SRO 190(I)/2021 dated 12th February, 2021, with the direction to submit the concerns raised in Review Motion in next Tariff Petition for consideration of the Authority, accordingly the concerns of PESCO are reproduced for consideration of the Authority as under:

The Review Motion was based on the following important issues of the determination:

- 1. Transmission & Distribution Losses.
- 2. RORB & Calculation of Deferred Credits.
- 3. Weighted Average Cost of Capital (WACC)

- 5. Post-Retirement Benefits
- 6. CPPA Overhead charges.
- 7. Supplemental Charges.
- 8. Turnover Tax.
- 9. Recovery of Revenue on Rs. /Kw Basis and Increase in Fixed Charges

1.1 TRANSMISSION AND DISTRIBUTION LOSSES.

NEPRA has determined the tariff on the basis of T&D Losses of 22.43% and 21.33% for FY 2018-19 and FY 2019-20 whereas the actual losses of PESCO for 2018-19 & 2019-20 were 37.11% & 38.87% respectively. The actual T&D losses of PESCO against NEPRA target for the FY 2014-15 to FY 2019-20 & FY 2020-21 (upto March, 2021) are tabulated as under:

Year	2014-15	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21 (Jul-March 2021)
%age Losses Actual	34.8	33.7	32.6	38.1	37.1	38.9	36%
%NEPRA Target	20.0	31.95	31.95	31.95	22.43	21.33	-

The actual T&D Losses of PESCO remained in the range of 33% to 39% during the last 6 years, while the target set by NEPRA for FY 2018-19 & FY 2019-20 is over ambitious and not based on ground realities.

Authority is therefore requested that since losses have direct impact not only on financial position of PESCO but also adversely affects the circular debt position, payable to CPPA and supplemental charges paid by CPPA to power generators, the same may be rationalized/reconsidered according to the economic conditions and environment of PESCO and considering the fact that the said period has already been lapsed and the actual losses of PESCO are 37.11% for FY 2018-19 & 38.87% for FY 2019-20.

NEPRA has been comparing the losses position of PESCO with that of other DISCOs, as a matter of fact the load of other DISCOs especially those of Punjab mainly comprises of big loss free consumers which is a major contributing factor towards reduction of %age losses. On the other hand, the main load of PESCO comprises of small domestic consumers which are fed through scattered LT Distribution network and lengthy 11 KV feeders emanating from distantly located Grids. As evidence the loss free consumers of Hattar Industrial Estate has such an effect on the losses of the Hazara Circle I & II that they are very much comparable with those of other DISCOs. The remaining 06 Circles comprises of Hard Area with FATA boundaries and dominating domestic customers, where the feeding arrangements are through scattered and lengthy distribution networks and as such the losses of these circles cannot be compared with those of other DISCOs.

Year Wise Trend of Transmission & Distribution Losses

Units in Million

STATUS	2014-15	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21Upto Mar-21
Units Received	11,656	11,750	12,511	14,209	14,427	14,792	11,221
Units Sold	7,596	7,783	8,432	8,795	9,074	9,043	7,185
Units Lost	3,681	3,967	4,079	5,414	5,353	5,749	4,036
%Age Losses	34.8	33.7	32.6	38.1	37.1	38.9	36.0%

The above data reveals that trend of PESCO distribution losses during last 6 years remains in the range of 33% to 39% and PESCO could not manage to reduce the distribution losses to desired level.

The following are main reasons for not reducing Technical & Administrative losses to the desired level.

Technical:

- Lengthy Transmission Lines.
- Over loaded grid system.
- High ratio of 11 KV Distribution line to 400 volts line (1:1.2).

• Very high percentage of Technical losses because of lengthy and out dated distribution and Grid System.

Administrative:

- Socio-Economic and culture issues
- Fata Boundaries
- Over all Law & Order Position.
- Consumer Mix
- Shortage of trained Manpower and lack of adequate financing.

The technical losses in our system are quite high as it is not upto the World standard due to overloaded/lengthy distribution and transmission network and allocation of limited resources. This has further been adversely affected by village electrification as lines have to be extended to remote areas for supplying power to scattered rural population under Political and Social Pressure.

The T&D losses target of 22.43% for FY 2018-19 & 21.33% for FY 2019-20 determined by NEPRA would not be achievable and requires a sustained long term efforts in a time span of 6 to 8 years as huge finances are required for renovating and upgrading the existing Transmission &Distribution System besides other technical measures for controlling the pilferage of energy. The detail analysis of the requested and Determined Technical Losses for FY 2018-19 & FY 2019-20 is as under:-

(i) <u>T&D LOSSES FOR FY 2018-19</u>

c. TECHNICAL LOSSES FY 2018-19

NEPRA assumed PESCO request on account of Transmission Losses and LT Losses as 3.00% and 4.00% respectively and on the basis of said assumption allowed the same to PESCO. The fact remains that PESCO requested Transmission Losses of 3.49% and LT Losses of 4.39% in its Tariff Petition for FY 2018-19 and accordingly the losses allowed are on lower side, which needs to be rectified / reconsidered. The relevant Para 32.9, 32.10 and 32.12 of the Tariff Determination is reproduced as under:-

"32.9. For the purpose of instant Tariff Petition, the Petitioner has requested transmission losses of 3.00% for the FY 2018-19. The Authority noted that the PESCO claimed lower transmission losses as compared to the results of third party study due the additions in its transmission networks (132KV and 66KV) as recommended by the third party consultant,".

"32.10. Foregoing in view, the Authority accepts the request of the Petitioner for claiming lower transmission losses and accordingly allows transmission losses of 3.0% for the FY 2018-19".

"32.12.For LT losses, PESCO requested 4.0% for the FY 2018-19 on actual basis, which are lower than 4.31% as per the third party study. In view thereof, the Authority has decided to accept the Petitioner's request and accordingly allows 4.0% LT losses for the FY 2018-19".

Similarly, NEPRA assumed 11 KV Distribution Losses of 12.93% based on third (3rd) party study, however the actual assessment of third party for 11KV Distribution Losses is 12.9995% and PESCO requested13.61% in its Tariff Petition for FY 2018-19, which also needs to be rectified / reconsidered. The relevant Para 32.12 of the Tariff Determination is reproduced as under:"32.12. The Authority considering the fact that the requested 11kV distribution losses of 15.11% are on higher side as compared to the assessed 11kV losses of 12.93% by the third party consultant, therefore, the Authority has decided to maintain the 11kV distribution losses based on the results of the third party study and accordingly allows the Petitioner 12.93%,11kV distribution losses for the FY 2018-19.........".

Based on the above facts, the detailed analysis is as under:

Description	NEPRA Existing (2017-18)	Third Party Study	Tariff Petition 2018-19	NEPRA Assumed Figure of Tariff Petition / 3rd Party Study	NEPRA Determ- ination
Transmission Losses (132 KV) (%)	3.64%	3.64%	3.49%	3.00%	3.00%
11 KV Network Losses (%)	12.999%	12.999%	13.61%	12.93%	12.93%
LT Line Losses (%)	4.31%	4.31%	4.39%	4.00%	4.00%
Total Technical Loss (%)	20.95%	20.95%	21.49%	19.93%	19.93%

The breakup in the above table shows that the losses of 19.93% are neither based on PESCO Tariff Petition nor based on third party study; hence it needs to be reconsidered / rectified. The Authority is requested to allow PESCO the requested Technical Losses of 21.49% for FY 2018-19 otherwise at least the losses as per third party study of 20.95% may be allowed.

d. MARGIN FOR LAW & ORDER

NEPAR existing	PESCO Tariff Petition 2018-19	NEPRA Determination		
11.00%	15.62%	2.50%		

The Authority has revised the margin for Law & Order from 11% to 2.50% that is a reduction of 8.50% which is on a very higher side and it is requested to reconsider the said decision and the reduction, if to be made, may be made gradually in increments of may be 2%. The reduction of 8.50% will put an unbearable burden on PESCO and would adversely affect the already weak financial position of the company. The fact remains that the actual losses of PESCO for FY 2018-19 were 37.11% and an unrealistic target of T&D losses of 22.43% for the period that has already been lapsed and for the financial year which is closed is neither achievable nor justifiable. Accordingly realistic target of T&D losses for the FY 2020-21 and onwards may be made with a reduction of 1% to 2% on annual basis.

(ii) **T&D LOSSES FOR FY 2019-20**

e. TECHNICAL LOSSES FY 2019-29

Similarly for FY 2019-20,NEPRA assumed PESCO request on account of Transmission Losses and LT Losses as 3.00% and 4.00% respectively and on the basis of said assumption allowed the same to PESCO. The fact remains that PESCO requested Transmission Losses of 3.70% and LT Losses of 4.38% in its Tariff Petition for FY 2019-20 and accordingly the losses allowed are on lower side, which needs to be rectified / reconsidered. The relevant Para 32.25, 32.26 and 32.28 of the Tariff Determination is reproduced as under:-

"32.25. For the purpose of instant tariff petition, the Petitioner has requested transmission losses of 3.0% for the FY 2019-20. The Authority noted that PESCO claimed lower transmission losses as compared to the results of third party study".

"32.26. Foregoing in view, the Authority accepts the request of the Petitioner for claiming lower transmission losses and accordingly allows transmission losses of 3.0% for the FY 2018-19" (it should be FY 2019-20).

"32.28.For LT losses, PESCO requested 4.0% for the FY 2019-20 on actual basis, which are lower than 4.31% as per the third party study. In view thereof, the Authority has decided to accept the Petitioner's request and accordingly allows 4.0% LT losses for the FY 2019-20".

Similarly, NEPRA assumed 11 KV Distribution Losses of 12.93% based on third (3rd) party study, however the actual assessment of third party for 11KV Distribution Losse sis 12.9995% and PESCO requested13.38% in its Tariff Petition for FY 2019-20, which also needs to be rectified / reconsidered. The relevant Para 32.28 of the Tariff Determination is reproduced as under:-

"32.28. The Authority considering the fact that the requested 11kV distribution losses of 14.55% are on higher side as compared to the assessed 11kV losses of 12.93% by the third party consultant, therefore, the Authority has decided to maintain the 11kV distribution losses based on the results of the third party study and accordingly allows the Petitioner 12.93%, 11kV distribution losses for the FY 2019-20......"

Based on the above facts, the detailed analysis for FY 2019-20 is as under:

Description	NEPRA Existing (2017-18)	Third Party Study	Tariff Petition 2019-20	NEPRA Assumed Figure of Tariff Petition / 3 rd Party Study	NEPRA Determ- ination
Transmission Losses (132 KV) (%)	3.64%	3.64%	3.70%	3.00%	3.00%
11 KV Network Losses (%)	12.999%	12.999%	13.38%	12.93%	12.93%
LT Line Losses (%)	4.31%	4.31%	4.38%	4.00%	4.009
Total Technical Loss (%)	20.95%	20.95%	21.46%	19.93%	19.93%

The breakup in the above table shows that the losses of 19.93% are neither based on PESCO Tariff Petition nor based on third party study; hence it needs to be reconsidered / rectified. The Authority is requested to allow PESCO the requested Technical Losses of 21.46% for FY 2019-20 otherwise at least the losses as per third party study of 20.95% may be allowed.

f. MARGIN FOR LAW & ORDER FY 2019-20

NEPAR existing	PESCO Tariff Petition 2019-20	NEPRA Determination		
11.00%	15.09%	1.40%		

The Authority has revised the margin for Law & Order from 11% to 1.40% that is a reduction of 8.50% which is on a very higher side and it is requested to reconsider the said decision and the reduction, if to be made, may be made gradually in increments of may be 2%. The reduction of 9.60% will put an unbearable burden on PESCO and would adversely affect the already weak financial position of the company. The fact remains that the actual losses of PESCO for FY 2019-20 were 38.87% and an unrealistic target of T&D losses of 21.33% for the period that has already been lapsed and for the financial year which is closed is neither achievable nor justifiable. Accordingly realistic target of T&D losses for the FY 2020-21 and onwards may be made with a reduction of 1% to 2% on annual basis.

PESCO requested 36.55% loss for FY 2019-20 whereas, PESCO could not achieved the targeted loss for FY 2019-20 due to pandemic COVID-19 during FY 2019-20. COVID-19 is a reality and has badly hit the economies throughout the world including Pakistan and especially PESCO, Authority is therefore requested to consider the same and allow a special allowance for the same (instead of deducting 9.60% already allowed margin) and actual losses of 38.87% for FY 2019-20 may be allowed to PESCO for smooth operations of the company otherwise the same target of T&D losses of 31.95% for FY 2018-19 and FY 2019-20 by including an allowance for COVID 19 may be allowed to PESCO.

REASONS FOR LOSSES:

The following are also the reasons for not achieving the desired losses:-

Each DISCO has been provided staff with an approved yard stick as per WAPDA / PEPCO standards. The fulfillment of vacant positions is a pre-requisite of better service and performance.

The Government of Pakistan has introduced imposition of ban on all kind of recruitment since long which is subject to lifting of ban as conveyed from time to time. It is brought into the knowledge of the Regulator that the minimum period between each imposition of ban is at least 5-

years. As and when the ban is lifted it is subject to the approval of Ministries and the minimum critical requirement as accepted.

Lifting of ban and process of recruitment takes at least two years to come with the minimum required staff and after that subsequently the trained staff gets minimum satisfactorily working standards within next 5-years.

It is pointed out that the practical requirement of the line staff and supervisory staff is much higher than the other staff. PESCO is provided with 28,476 sanctioned posts, out of which it has since been working on half of the strength which is main cause of its low performance towards reducing line losses, recovery from dead defaulters, maintenance of line, augmentation of works, daily operation and maintenance etc.

In the light of above considerations previously provided targets towards line losses were discussed with the Regulator and being worked out accordingly. Law and Order / security staff shortage is totally neglected.

At present PESCO is working with more than half of the sanctioned staff with drastically low level of line and maintenance staff which is resulting into the following: -

- 1- Increased theft of electricity;
- 2- Non-collection of revenues;
- 3- incomplete billing;
- 4- System failures;
- 5- Disruptions of supply;
- 6- Line Patrolling / Chowkidara;
- 7- Theft of Transformers;

(Letter No.42075-85/HR/PESCO from CEO PESCO to Inspector General of Police, KPK is placed at (Annex-A)

The sanctioned strength of critically required posts which has been conveyed to the Ministry from time to time is at **Annex-B** and reproduced as under:-

S #	DOCTO	Total	Critical Recruitment
5#	POSTS	Shortage	Allowed
(A)	BPS-17 & ABOVE		
1	Junior Engineer / SDO	99	70
2	Assistant Manager (CS) & others	55	. 19
	Total (A)	154	89
(B)	BPS-01 TO BPS-16		
3	Line Superintendent (Grade-II)	358	156
4	Meter Reader	856	220
5	Bill Distributor	853	530
6	Assistant Lineman (ALM)	3,265	2,605
7	All other categories of vacancies	2,428	0
	Total (B)	7,760	3,511
	Grand Total (A+B)	7,914	3,600

The total requirement of staff of PESCO is at Annex-B.

PESCO has taken up this matter with PEPCO vide its letter No. 113/HR/PESCO Dated 25-08-2018 (Annex-B). It was allowed to PESCO regardless of the critical requirement of 5,198 vide PEPCO Letter No. 10699-10700/GM/HR/PEPCO Dated 24-10-2018 (Annex-C).

PESCO again approached PEPCO to reconsider the requirement of the Company which was adversely affecting its performance vide letter No. 29131-33/HR/PESCO Dated 31-10-2018 (Annex-D), however PEPCO responded with the similar allowance vide its letter No. 11777-78/GM HR/PEPCO Dated 30-11-2020 (Annex-E).

The matter was once again taken up with PEPCO vide this office letter No. 270-72/HR/PESCO/P-II(19) Dated 19-09-2019(Annex-F) stressing upon the critical requirement as per company requirements, in reply to which PEPCO again conveyed that additional demand will be considered after completion of first phase vide PEPCO letter No. GM(HR)/AMA/DA-97/1539-40 Dated 06-11-2019 (Annex-G). Since then repeated requests were made to PEPCO vide this office

letter No. 37532-37533/HR/PESCO Dated 16-10-2020 followed by No. 42004-42005 Dated 02-12-2020 (Annex-H&I respectively) but no fruitful results.

Then the Chief Executive Officer, PESCO himself approached MD PEPCO (Annex-J) to take up this matter on the following grounds:-

It is submitted that, unlike other good performing DISCOs, the ground realities of PESCO are altogether different as far as the area of jurisdiction of company is concerned; it delivers services over stretched area of about 74,500 Square Kilometers to 25 Districts of KPK as well as Azad Jammu & Kashmir.

According to the consumer statistics out of 3.6 million consumers, 87% are domestics and most of them either fall in cluster of villages or in very scattered area in hilly terrains and desert. Find in hilly areas single house are connected through HT/LT lines through distribution transformers. The commercial consumers contribute only 10% and these commercial centers of medium level shops except cities like Peshawar, Mardan and D.I.Khanetc whereas industrial sectors which is considered as the backbone on account of no loss & 100 % recovery of any DISCO is only 0.75% in PESCO designated industrial areas.

It is also mentioned that FATA/TESCO was detached from PESCO during July -2003 and most of the areas falling on the border of FATA have still the same culture of using direct electricity through hooks and non-payment of bills. It is on the record that areas of PESCO Operation Division like Bannu, Tank, DI Khan, Hangu, Mattani,Badaber, Warsak, Charssadda, Shubqadaretc on the borders of FATA have worst results due to the influence of FATA culture, contrary to other areas like Swat, Hangu, Peshawar, Khyber, Mardan, Swabietc have good results compatible with good DISCOs.

The Profile of PESCO is as under:

1

S.No	Description	No.s
1	Grid Station	102
2	Power Transformer	239
3	Length of Transmission Line	3,333 Km
4	11-KV-Feeders	1,087
5	Length of HT Feeders	36,935 Km
6	Length of LT Line	45,204 Km
7	Distribution Transformers	77,307

PESCO intends proper & timely maintenance of above said huge system of company, complete all developmental works, system constraints, removal of hazardous locations & to provide better services to its consumers across Khyber Pukhtunkhawa& AJK but it is not possible with a deficit of approximately 53% staff and vehicles due to ban on recruitment by successive Governments since 2002 (when the Transmission & Distribution System & Consumers were almost less than half).

Therefore, approval requested from government /competent authorities for allowing to fill the vacant post & requirement of vehicles mentioned above on immediate grounds, so that better services to the consumers, proper meter reading, establishment of proper complaint offices as per SoP for better services and sustainable chowkidara from theft of energy as per SoP provided by Nepra be provided. To improve performance standard of NEPRA Distribution Rules (PSDR), Annual performance standard (APRS), SAIFI, SAIDI of PESCO, beside improvement in safety of staff and public, through timely maintenance of Transmission & Distribution System from September 2020 to March 2021during the maintenance period for removal of system constraints and execution of approved development works.

Acute Shortage of Vehicles

The Logistic requirement of the PESCO is not fulfilled as per yardstick of the Sub Divisions, Divisions and Circles. Government of Pakistan has imposed ban on the purchase of vehicles vide Finance Division (Expenditure Wing) O.M No. 7(1)Exp.IV/2016-812 Dated 21-08-2019 (Annex-K).

PESCO has been repeatedly requesting to PEPCO and Ministry to allow purchase of vehicles to meet with our critical field requirements. The shortage of vehicles adversely affecting the Company's performance in the following areas: -

- 1- Maintenance of existing feeders and lines.
- 2- Redressal of consumer complaints.
- 3- Redressal of Break downs (both Major / Minor).
- 4- Proposed LT / HT works.
- 5- Maintenance of Transformers, System Rehabilitation etc.

Due to above unfulfilled works, the consumers complaints and services are not as per standard and on the other side losses are uncontrolled as desired by the Regulator. The continued ban on the purchase of logistics which can be seen from the Annexed enclosures is affecting revenue and system losses also, which are not upto the mark till now. The Regulator must understand the constraints of the company in this regard because in the light of shortage of vehicle and logistics facilities, the desired goal towards losses cannot be achieved so far.

After the target losses are reduced by the Regulator, this will not be practical for the company and will have to be charged towards revenue and overall performance and the targets will be difficult to be met with. These are the factors which make the decision of the Regulator ineffective on one side and failure of the company towards the compliance and over all contribute to the non-achievement of targets on the other hand, therefore the decision of the Regulator is unjustified keeping in view the constraints mentioned above and need to be reviewed otherwise the decision will be unable to materialize.

The present position / shortage of vehicles is as under: -

AUTHORIZED	AVAILABLE	SHORTAGE		
1,121	721	400		

Break-up of above shortage is as under

S#	Vehicle Type	Shortage
1.	Trucks	15
2.	Cranes	35
3.	Bucket Mounted Vehicles	35
4	-Suzuki Vans	05
5.	Pick ups	310
	TOTAL	400

In the light of above submissions, the company management is handicapped towards the day to day business as well as fulfilling its duties towards reduction of losses. These restrictions contribute in reduction in revenues and non-receipt of bills ultimately affecting the improvement of the system even through own resources, therefore the achievement is impossible and if the Regulator does not consider the request of the Company it will result into non-fulfillment of goals.

Authority is therefore requested to reconsider its decision keeping in view the actual T&D losses for FY 2018-19;37.11% and allow the same (21.49% technical loss & 15.62% margin for law and order) to PESCO and for FY 2019-20 actual losses of 38.87% may be allowed for smooth operations of the company otherwise the same target of T&D losses of 31.95% for FY 2018-19 and FY 2019-20 by including an allowance for COVID 19 may be allowed to PESCO.

1.2 RORB & CALCULATION OF DEFERRED CREDITS

The Authority at para 35.34 of the Distribution Tariff Determination of FY 2018-19 & FY 2019-20 stated that PESCO Financial statement for FY 2018-19 shows insufficient balances as on 30th June, 2019 against pending liability of Receipt against Deposit Work and consumer security deposits and that amount has been utilized somewhere else and petitioner failed to provide any details in this regard. In this context it is once again apprised that PESCO has already provided the details during Review Motion for FY 2015-16 and it was categorically mentioned that the apprehension of utilization of receipt against deposit work is not based on ground realities and needs to be reconsidered. The deduction of legitimate RORB, which is already on a very lower side, is unjustified as it has no correlation with Revenue Requirement and the DM.

It was categorically contested that the maintenance of such huge balance of cash is not possible considering the weak cash flow position of PESCO and the fact that PESCO inherited the same on its inception in 1998 together with the amount being recovered by FBR from these heads from time to time. However, PESCO is making all out efforts to recoup the shortfall gradually and it is now only Rs. 774 Million (collectively) as on 30-06-2020 compared to Rs. 3,722 Million in 2015-16. In any case the treatment of the shortfall and its deduction from DM is objectionable and needs rectification.

Moreover, PESCO is utilizing the said Receipts for the purpose for which it was received; however, there is a misconception that needs to be addressed by Nepra instead of deducting the amount from RoRB. PESCO has severe reservations on the treatment of Deferred Credit in RORB calculations, Nepra is not considering the balance under the head of Deposit Work In Progress, Balance and the stock in operation rather only comparing the Receipts against Deposit works with the bank balance and penalizing PESCO to this account repeatedly with heavy financial penalties on the same amount every year is unjustified.

PESCO like all the DISCOs maintains inventory records as per Inventory Recording Procedure approved by the competent authority and the records are maintained based on the single entry card i.e. any inventory received by the store keeper is recorded irrespective of the source of financing. Since the works conducted under various scheme such as DOP, ELR, STG, augmentation etc are carried out throughout the year. The stock is released against each work order and the Authority's apprehension that the funds have been utilize somewhere else are unfair and incorrect as no clarification was sought from PESCO before incorporating the same in the PESCO Tariff Determination for FY 2018-19 & FY 2019-20 despite of the fact the soft copy of the audited according for FY 2018-19 and draft accounts for FY 2019-20 along with detailed trial balance containing all the required figures was provided.

It is pertinent to mention here that based on the same questionable principle, NEPRA has again deducted additional amount of Rs. 13,952 Million for FY 2018-19 & Rs. 12,838 Million for FY 2019-20 from the asset base of PESCO without considering the available balances under the head of Deposit Work In Progress, Bank Balance and the stock in operation.

Similarly, NEPRA has deducted additional amount of Rs. 22,009 Million for the period FY 2015-16, FY 2016-17 and FY 2018-19 from the asset base of PESCO compared to the actual audited

amount of Rs. 11,779 Million as calculated by PESCO. The said figure of Rs. 11,779 Million is calculated by PESCO for the sake of comparison only and it has no relation with the PESCO's stance that the said treatment is not legally acceptable.

The detailed analysis is presented in the below table:

Table - 1

Deferred Credit		:		; [· 	Rs. In Min
Description	2015-16	2016-17	2017-18	Sub-Total	2018-19	2019-20	Sub-Total

Stock Account	6,239	3,519	3,186		4,497	5,355	
Bank Balance	464	3,077	4,356		3,459	9,316	
Sub-Total	10,959	12,500	13,978		15,086	22,257	# #
b. Difference as per Pesco	3,722	3,873	4,184	11,779	3,485	774	4,259
Net Difference (a-b)	7,453	1,772	1,005	10,231	10,467	12,064	22,531

The above calculations shows that the Authority deducted the amount of deferred credits Rs. 45,433 Million for FY 2018-19 &Rs. 45,613 Million for FY 2019-20 while calculating the regulatory assets base of PESCO, whereas the actual amount of deferred credits that is required to be considered is Rs. 31,491 Million for FY 2018-19 & Rs. 32,775 Million for FY 2019-20. The financial impact of the excess deduction made by the Authority considering the WACC used in determination i.e 10.95% for FY 2018-19 & 15.02% for FY 2019-20 is Rs. 1,528 Million for FY 2018-19 and Rs. 1,928 Million for FY 2019-20.

It is pertinent to mention here that the above said financial impact of the excess deduction is calculated on the basis of WACC as determined by Nepra and is for the sake of comparison only and it has no relation with the PESCO's stance that the WACC should be determined on consistent assumptions and should consider the cost of Debt on the basis of available loans on PESCO's balance sheet.

The detailed analysis is presented in the table below:

Table – 2

Description 2015-16 2016-17 2017-18 Sub-Total 2018-19 2019-20 Sub-Total Impact of Deferred Credit deduction as per Nepra Calculations:				Rs. In Min			
Description	2015-16	2016-17	2017-18	Sub-Total	2018-19	2019-20	Sub-Total

WACC as per Nepra Determinations	11.83%	11.83%	11.83%		10.95%	15.02%	
Financial Impact of RORB deduction	440	18	37	495	(77)	(407)	O
Excess Deductions	and the second s			· · · · · · · · · · · · · · · · · · ·			,
Nepra -Firiancial Impact of RORB deduction	1,322	668	614	2,604	1,528	1,928	3,456
Pesco -Financial Impact of RORB deduction	440	18	37	495	(77)	(407)	(484)
Excess Deductions to be Allowed (RORB)	882	650	577	3,099	1,528	1,928	3,456

The above calculation shows that the Authority has deducted the RORB amount of Rs. 1,528 Million for FY 2018-19 & Rs. 1,928 Million for FY 2019-20 (total Rs. 3,456 Million for two years), whereas the actual amount to be deducted is Zero. It is a fact as depicted in the above table that the Authority is repeatedly including the cash shortfall of FY 2015-16 in all the subsequent years and similarly for next years and so on, which means that PESCO has been penalized for the same amount in every year from FY 2015-16 to FY 2019-20, which is unfair and unjustified. Instead of considering the movement in the said head, the Authority has repeatedly used the closing balances, which need to be reconsidered.

The Authority is apprised that PESCO is not utilizing the consumer receipts for any other purpose and the above Table -2 verifies the said fact. Further, since FY 2015-16 PESCO has managed

to reduce the shortfall (whether inherited on recovered by FBR) to Rs. 774 Million (collectively), hence the deduction of RORB has no legal grounds and needs to be allowed to PESCO.

Moreover, considering the principle of deduction of PEPCO fee of previous years in the instant Tariff Determinations, PESCO hereby claims the excess deducted RORB of Rs. 3,099 Million (as shown in Table -2 above) for the years 2015-16, 2016-17 and 2017-18 during 2019-20 on the same principle and requests the Authority to allow the same to PESCO as the said deduction is unjustified.

The revised calculation of RORB is as under:

RORB Calculation

				Min Rs.
			Audited	Audited
	Description	·	2018-19	2019-20
Α	Gross Fixed Assets in Operation - Opening Bal	[Min Rs]	76,825	83,299
В	Addition in Fixed Assets	[Mn Rs]	6,474	4,096
С	Gross Fixed Assets in Operation - Closing Bal	[Min Rs]	83,299	87,395
D	Less: Accumulated Depreciation	[Min Rs]	29,320	32,191
Ε	Net Fixed Assets in Operation	[Min Rs]	53,979	55,204
F	Add: Capital Work In Progress - Closing Bal	[Min Rs]	18,127	19,756
G	Investment in Fixed Assets	[Min Rs]	72,106	74,960
Н	Less: Deferred Credits	[Min Rs]	31,491	32,776
. 1	Regulatory Assets Base	[Min Rs]	40,615	42,184
J	Average Regulatory Assets Base	[Min Rs]	39,347	41,400
),	Rate of Return (Reference WACC)	[%age]	10.95%	15.02%
الموجودية. المسالات	Return on Rate Base	[Min Rs]	4,418	6,320

Keeping in view the above facts, Authority is therefore requested to review the calculation of deferred credits and allow the deducted amount of RORB of Rs. 1,528 Million (total RORB; Rs. 4,418 Million) for FY 2018-19 & Rs. 1,928 Million (total RORB; Rs. 6,320 Million) for FY 2019-20 and Rs. 3,099 Million for the previous year's 2016-18.

1.3 WEIGHTED AVERAGE COST OF CAPITAL (WACC)

NEPRA allowed 10.95% WACC for FY 2018-19 & 15.02% for FY 2019-20 to PESCO in its . Tariff Determination for FY 2018-19 & FY 2019-20, PESCO has severe reservation on the calculation of allowed WACC. Authority is requested to review the same in the light of clear evidence that it will not be sufficient to meet the revenue requirement of PESCO and the assumptions on which the calculation is based. The authority has taken the assumptions without even considering the economic conditions of KPK and the effect of war on terror on the business environment in which PESCO is providing services and hence it needs to be reconsidered. NEPRA used different assumptions for the calculation of WACC in every two to three years from FY 2014-15 to FY 2019-20 instead of applying the assumptions consistently, thereby reducing the amount of WACC on one pretext or the other, which needs to be reconsidered.

The Authority is requested to apply the assumption consistently for a reasonable control period instead of changing it every third to fourth year.

Firstly, for the assessment of ROE component, weighted average yield on 05 years Pakistan investment bond (PIB) as of June 13, 2018 has been considered as risk free rate which is 8.4795% for FY 2018-19 & 13.7687% for FY 2019-20. Moreover, the rate of return on KSE-100 index over a period of 8 years was around 15% (same figure as was used in previous determination and no detail provided neither in respect of base years nor any other detail to comment). The same translated in to risk premium of around 6.521% for FY 2018-19 and 1.23% (very low) for FY 2019-20 and on the other hand, the risk premium used by different brokerage houses of the country ranges from 6% to 7%.

Authority assumed market risk premium of 6.521% & 1.23%(very low) which may be reconsidered as only Karachi generates almost 60% of the business activity as compared to Peshawar which is 200% folds higher. These assumptions were considered without even considering the economic conditions of KPK and the effect of war on terror on the business environment in which PESCO is operating. Accordingly, the area of operation and the economic conditions of the area needs to be considered and necessary adjustments may be made to the risk premium because of the fact that the market in Khyber Pakhtunkhwa is riskier than that of other parts of the country and a margin of 2% to 3% may be added to the new base line. The linking of return with Transmission & Distribution losses margin allowed by Authority does not hold ground as the same has been

substantially reduced by the Authority together with heavy deduction of the allowed provision for bad debts of FY 2015-16. Moreover, the Power Purchase Price is a pass through item and relates to the cost and has no co-relation with return which is for the equity holders.

Another assumption was made by Authority for measurement of Beta, in order to arrive at a suitable measure, Authority conducted an in house analysis and arrived at appropriate measure of 1.10 and it is the same as was used during 2015-16, which means the economic conditions are stable even in the wake of pandemic COVID 19, hence needs to be reconsidered.

Moreover, to ascertain the cost of debt Authority has decided to take cost of debt as 3 months KIBOR+2.00% spread (200 basis points). Since 2015-16 authority used 3 months KIBOR+2.75% spread, however, the authority used 2.00% spread for FY 2017-18 &FY 2018-19 without any reason and it only seems to reduce the return of PESCO. The Authority is requested to apply the assumptions consistently and firstly the cost of debt may be allowed on the basis of the outstanding loans of PESCO otherwise may allow a spread of 2.75% as was previously allowed during FY 2016-17 and FY 2017-18.

By considering the spread of 2.75% the cost of Debt would be revised to 9.68% for FY 2018-19 i.e. 3 months KIBOR of 6.93% as of July 3rd July, 2018 plus 2.75% spread, similarly for FY 2019-20 it should be 16.63% i.e3 months KIBOR of 13.88% as of 25thJuly, 2019 plus 2.75% spread (actual 3 months KIBOR of 25thJuly, 2019 is 13.88% instead of 12.97% as used by Nepra).

Based on the above assumptions the Authority is requested to allow WACC of 11.47% for FY 2018-19 and 16.18% for FY 2019-20 based on the above adjustment in cost of debt. Moreover, in addition to above, the average risk premium of 6.5%, as used by different brokerage houses, may also be allowed and the calculation may be adjusted accordingly.

1.4 PROVISION FOR BAD DEBTS

The Authority at Para 25.4 of the Supply of Power Tariff Determination has decided to adjust back the amount of write-offs of Rs.14,997 million actually recovered by the Petitioner against the allowed amount of Rs.15,748 million through PYA because of the reason that the amount was not actually written off. The Authority is requested to review its decision and considering the fact that the said amount has already been charged to Profit & Loss account may allow the same as per previous

decision of FY 2015-16. The conditions set forth in the tariff determination for writing off outstanding arrears could not be fulfilled due to the following reasons: -

As mostly the arrears pertain to previous years (more than 10-15 years old) and the detail of consumer's record particularly CNIC could not be traceable because of the fact that it was not the basic document for provision of connection.

As far as due process of law for recovery of outstanding arrears under Land Revenue Act 1967 is concerned, Tehsildar (Recovery) should be posted in every Circle by the Provincial Govt. However, no Tehsildar (Recovery) has been posted in any Circle of PESCO despite a chain of correspondence with the Provincial Revenue Department.

Further if Tehsildar (Recovery) is posted even then without fulfilling the codal formalitie will not be in a position to certify that the amount is irrecoverable and all his efforts have been failed. Similarly, authentication of arrears of yester years and location of consumers or his successor-ininterest at this belated stage is also a big question mark.

It is to mention that new procedure / guide lines for writing off outstanding dues against permanent disconnected defaulters is required and all the DISCOs are relying on the existing policies issued by WAPDA which are very stringent. It is therefore recommended that NEPRA may conduct a consultative session of all the DISCOs to evolve a simple mechanism/ procedure for write off bad debts/ irrecoverable dues. Till the establishment of a practicable procedure considering the above facts, Authority is requested to allow the provision for bad debts to PESCO.

1.5 POST-RETIREMENT BENEFITS

Authority in its tariff determinations for FY 2018-19 & FY 2019-20 disallowed provision for post-retirement benefits expenses and allowed only actual cash payment made to the pensioners during the said period. PESCO is of the view that as per Authority directions, PESCO has created a separate Pension fund account, hence it should be allowed to PESCO to enable it to transfer the allowed fund to the said account. Authority is therefore requested to allow the provision of post-retirement benefits of Rs. 3,238 Million for FY 2018-19 &Rs. 3,061 Million for FY 2019-20 as per audited accounts of PESCO.

1.8 TURNOVER TAX

evical allegation

Authority in its determination dated 11th December 2020 under the para37.4allowed turn over tax paid by PESCO for FY 2016-17 and FY 2017-18, however turn over tax paid by PESCO during FY 2018-19 and FY 2019-20 was not allowed by the Authority. Accordingly, it is submitted that PESCO has already paid the turn over tax amounting to Rs. 1,432 Million and Rs. 1,576 Million during FY 2018-19 and FY 2019-20, as evidence of payment Income Tax return for FY 2018-19 along with cash payment receipts (CPRs) of FY 2018-19 and FY-2019-20 are enclosed at Annex-M.It is pertinent to mention here that the figure of Turnover tax for FY 2019-20 is not finalized and may increase on the basis of return to be filed shortly, however, after filing of return for FY 2019-20 the remaining amount will be claimed in subsequent tariff petition.

The detail of turnover tax payment is as under:

S.No.	Month of Payment	FY 2018-19 (Mln Rs.)	FY 2019-20 (Mln Rs.)
1	August		
2	September	180	427
3	October	175	77
4	December	305	423
5	January:	65	48
6	March	361	
7	April		368
8	May		233
9	June	263	
10	At source deduction/adjustment	83	
	Total	1,432	1,576

Authority is therefore requested to allow Rs. 1,432 Million and Rs. 1,576 Million for FY 2018-19 and FY 2019-20 on account of Turn over tax, as the same has already been paid by PESCO.

1.9 <u>RECOVERY OF REVENUE ON RS. /KW BASIS AND INCREASE IN FIXED</u> <u>CHARGES</u>

The authority at para 41.1 of the supply of power determination FY 2018-19 & FY 2019-20 stated and reproduced as under:-

"The present consumer end tariff design is of volumetric nature whereby major portion of the Power Purchase Price (PPP) is charged/recovered from the consumers on unit basis i.e per KWH and only a small amount of the total PPP is recovered on MDIs basis. The authority considering the increased quantum of capacity charges, and the present volumetric nature of tariff, has decided to increase the rate of fixed charges currently applicable to certain categories, by around 10% i.e from Rs. 360/KW/M, Rs. 380/KW/M and Rs. 400/KW/M, to Rs. 400/KW/M, Rs. 420/KW/M & Rs. 440/KW/M respectively. However, at the same time, the Authority, not to overburden such consumers who are levied fixed charges, has adjusted their variable rate, to minimize the impact of increase in fixed charges."

PESCO has already requested during the hearing that the fixed charges should be increased and a portion of the revenue should be recovered through Rs. /Kw and accordingly the same should be increased toRs. 1,600/KW/M,Rs. 2,600/KW/M, Rs. 2,900/KW/M &Rs. 3,100/KW/M instead ofRs. 200/KW/M, Rs. 360/KW/M, Rs. 380/KW/M and Rs. 400/KW/M respectively on the categories on which it is currently being charged with a corresponding decrease in the rate of variable charges instead of 10% increase.

REVIEW MOTION CONCLUSION

The tariff determined by NEPRA for FY 2018-19 & FY 2019-20 does not meet the revenue requirements of PESCO, therefore, it should be reviewed in the light of above submissions.

Authority has deducted Rs. 99 Million on account of PEPCO management fee for FY 2016-17 and FY 2017-18 considering the fact that the same was principally agreed by the Authority in PESCO Review motion for FY 2016-17 and FY 2017-18, accordingly it is requested to reconsider the decision and allow the same to PESCO as it has already been incurred, if it is to be disallowed then the same should be disallowed prospectively rather than with retrospective implications.

Moreover, the deduction of Rs. 96.27 Million made from Other Expenses of FY 2018-19 may be reconsidered as it is the management fee paid by PESCO on account of other services as well e.g to PITC etc. and includes only Rs. 46.75Million on account of PEPCO management fee.

The relevant debit advices of PEPCO management fee received during FY 2018-19 are enclosed at **Annex-L**. Authority is therefore requested to allow Rs. 49.52 Million other than PEPCO management fee and also allow PEPCO management fee of Rs. 99 Million for FY 2015-16 and FY 2016-17 and Rs. 46.75 Million for FY 2018-19.

1.7 SUPPLEMENTAL CHARGES

NEPRA has allowed offsetting the Late Payment Charges (LPC) recovered from the consumers against the Late Payment Invoices of markup on delayed payments i.e supplemental charges raised by CPPA since FY 2014-15 yet the same is not enough to pay off the supplemental charges completely. CPPA is charging supplemental charges to PESCO on account of delayed payments to IPPs and the shortfall is as under:

			Rs. In Billion
Year	Supplemental Charges	late payment charges	shortfall
2014-15	Rs.4.941	Rs. 1.637	Rs.3.304
2015-16	Rs.2.042	Rs. 1.451	Rs.0.591
2016-17	Rs.2.621	Rs. 1.595	Rs. 1.026
2017-18	Rs.2.846	Rs. 1.839	Rs. 1.007
2018-19	Rs.7.973	Rs. 2.044	Rs. 5.929
2019-20	Rs.13.011	Rs. 3.084	Rs. 9.927
Tota	l Rs.33.434	Rs. 11.650	Rs. 21.784

Authority is therefore requested to allow the same to PESCO.

• INVESTMENT PLAN

SUMMARY OF EVIDENCE & RELIEF SOUGHT:

a. RELIEF / DETERMINATION SOUGHT

In support of the petition in hand the standard formats are enclosed as per requirement;

- Approval of Category-wise Tariff for FY 2020-21 to 2024-25 Form 27
- Approval of Revenue Requirement for FY 2020-21 to 2024-25 Form 20.
- Summary of Category-wise Revenue Requirement for FY 2020-21 to 2024-25 Form 27A.
- Any other relief

b. KEY ASSUMPTIONS TO THE FINANCIAL PROJECTIONS/ RELIEF SOUGHT

- Total Unit Sales: The units projected for FY 2020-21 to FY 2024-25 are 9,450 Million, 9,875 Million, 10,320 Million, 10,784 Million & 11,269 Million respectively.
- Target Transmission & Distribution Losses: The losses have been projected at 37.85%, 36.83%, 35.78%, 34.72% & 33.64% for FY 2020-21 to FY 2024-25 respectively.
- The Financial Projections are made on the basis of existing notified tariff and actual T&D losses adjusted with the proposed tariff.
- It is pertinent to mention here that PESCO BoD in its 149th meeting held on 28-10-2020 authorized to file Single Year Tariff Petition for FY 2020-21, however, PESCO could not able to file the same because of the directions issued by the Authority to file Multi Year Tariff Petition for a period of five years. Accordingly, PESCO is filing this Multi Year Tariff Petition for the period FY 2020-21 to FY 2024-25 specifically on the directions of Nepra as given in PESCO Tariff Determination for FY 2018-19 and FY 2010 reproduced as under:
 - ".....File Multi Year Tariff Petition for a tariff control period of five year to avoid any delay in tariff determinations".
- Moreover, it is apprised that NEPRA granted Distribution License (No.07/DL/2002) to PESCO dated 30th April, 2002 for a period of twenty (20) years, which means that the Distribution License of PESCO is valid till April, 2022. As mentioned above, PESCO is filing Multi Year Tariff Petition for FY 2020-21 to FY 2024-25 (05 years) as per the directions of the Authority, accordingly it is requested to consider the petition in

- anticipation of License renewal. In the meanwhile, PESCO will apply for the extension of its license as per regulatory requirement.
- That in view of the grounds and facts mentioned above, it is respectively prayed that while admitting and allowing this petition, the Tariff of PESCO for the FY 2020-21 to 2024-25 as per the actual expenditure of FY 2019-20, may very graciously be determined as proposed, keeping in view the following:
- a. Ensuring the financial viability of the petitioner for the reliable supply of electricity to its over 3.9 Million consumers;
- b. Timely Determination of Tariff along with its monthly adjustments or quarterly adjustments as proposed, providing sufficient time to the petitioner for the recovery of the Determined Revenue Requirement;
- c. Fixing of target of T&D losses by taking a realistic approach;
- d. Approving the investment plan of Rs. 10,213 Million, Rs. 14,041 Million, Rs. 13,354 Million, Rs. 11,550 Million & Rs. 7,411 Million for FY 2020-21 to FY 2024-25 as projected.
- e. Allowing Distribution Margin (DM) Rs. 38,831 million, Rs. 42,015 million, Rs. 47,523 million, Rs. 52,940 million & Rs. 57,720 million for FY 2020-21 to FY 2024-25 as projected.
- f. Post Retirement reduction made by Authority during last years in the O&M Expenses may be allowed in the FY 2020-21 to 2024-25 as prior period adjustments as PESCO has created Pension Fund in compliance to Authority's Direction. It is further respectfully prayed that PESCO may be allowed such expenses in O&M, so that PESCO after collecting the same through tariff, would be able to deposit into the fund created for the purpose.
- g. To allow Prior Year Adjustments including the amount deducted from RORB, on the basis of wrongly assumed cash shortfall, since 2015-16 as it is not covered under any clause.
- h. To allow Turn over Tax (including pending tax for FY 2016-2021), pending CPPA Overhead and Supplemental Charges for FY 2015-2020.
- i. To allow WACC @ 14.06%.
- j. To allow fixed charges as per proposed tariff with the condition to charge on the basis of actual MDI or the sanctioned load whichever is higher, whichever is higher.

- k. To introduce a new category of Tariff for wheeling, UOSC of NTDC and the Hybrid consumers.
- 1. To allow fixed charges on Net Metering on the basis of Load and to continue the tariff category of Telecom sector as per existing terms and conditions.
- m. To allow PESCO review motion claims as prior period adjustment.
- n. To allow USPS revenue shortfall.

o. Any other relief.

Islamabad, July 04, 2019.

Subject:

CASH AND NON-CASH SETTLEMENT FOR POWER SECTOR RS.3/KWH SUBSIDY ANNOUNCED BY THE PRIME MINISTER FOR THE INDUSTRIAL SECTOR AND AJ&K DUES.

I am directed to state that the ECC of the Cabinet in its meeting held on June 10, 2019 considered the subject Summary and approved proposals at para-8 (a) and 8(b) of the summary with modification, vide decision No. ECC 243/20/2019 dated June 19, 2019 as follows:

"..... And approved the proposals contained in Para 8 (a) and (b) of the summary with the following modification:

Para 8 (a) of the Summary

ii) Adjustment of Payable ISP and AJK subsidy will be made through Memorandum authorization by Finance Division.

2. Relevant portion of Para 8 l.e. Sub-para (b), of the summary dated June 10, 2019 is reproduced:

"(b) On account of AJ&K receivables of three DISCOs I.e. Rs. 119.05 billion (IESCO Rs. 80.58 billion + GEPCO Rs. 15.08 billion + PESCO 23.39 billion), Rs 18.6 billion are on account of faxes. From the balance Rs. 100.5 billion (119.05-18.6), Rs 27 billion will be adjusted as cash @ Rs 9 billion per year, Rs 16 billion as non-cash against the re-lent loans for the aforementioned DISCOs and the balance Rs 57.5 billion as equity in the DISCOs in ratio equivalent to the percentage share of their outstanding liabilities against CPPA. Claims of AJK subsidy beyond June 30, 2019 will be dealt with in accordance with agreement of GoAJK."

3. The decision of the ECC of the Cabinet is hereby communicated for information and further necessary action for implementation of the decision. Further it is therefore requested that submit the implementation report to this Division on priority basis.

Subject:

ESTABLISHMENT OF DISCO IN AJ&K FOR STREAMLINING ELECTRICITY DISTRIBUTION IN THE REGION

ECC of the Cabinet vide decision No. 76/11/2019 dated 20.03.2019 interalia decided as under:

"Power Division to facilitate AJ&K Government to establish regular DISCO to streamline electricity' distribution in the region after seeking license from NEPRA. Till such time Electricity Department of AJ&K may assume the functions of Distribution Company (DISCO) and adopt the average tariff of three DISCOs i.e. Gujranwala Electricity Power (GEPCO); Islamabad Electric Supply Co. (IESCO) and Peshawar Electric Supply Company (PESCO) for all categories. ECC of the Cabinet to be briefed on progress after 30 days" (the summary moved by the Ministry of Water Resources).

2. The issue was again deliberated during the meeting held on 16.09.2020, under the chairmanship of Prime Minister of Pakistan, wherein interalia following decision was taken:

<u>Decision</u>	Time line	Action
Proposal for change in bulk tariff rate for AJ&K to be presented in ECC of the Cabinet after seeking comments from Government of AJ&K	2 weeks	Power Division Finance Division

- 3. In pursuance of above and for implementation of the above mentioned decisions, a meeting was held under the chairmanship of Federal Secretary Ministry of Energy (Power Division) on 09.10.2020. The meeting was participated by Government of AJ&K, Ministry of Water Resources, WAPDA, CPPA-G and IESCO. PEPCO and PITC attended the meeting through ZOOM. Attendance sheet is attached as Annex-I.
- 4. After detail deliberations following decisions were taken:
 - Power Division will facilitate Government of AJ&K for filling a reference to NEPRA for enhancement of Water Use Charges;
 - Government of AJ&K will share the Draft Power Sales Agreement within one week for due diligence by Power Division to proceed ahead on amending Mangla Raising Agreement of 2003;
 - iii. Consent of AJ&K Government be shared with Power Division for initiating the process for amending Mangla Raising project Agreement;
 - iv. Power Division to constitute a committee under the chairmanship of Federal Secretary for Power Division to finalize detailed roadmap for establishing a regular DISCO at AJ&K, decide on change in WUC, and review power sales terms for modification of Mangla Dam agreement of 2003. The Committee will finalize complete this assignment within two months;
 - v. AJ&K Government to share the recent study completed by Consultants for establishment of a DISCO for peer review by Power Division.

The meeting ended with a vote of thanks to and by the Chair

__**_**_**_**

PF- No. 05(02)2019-20

Islamabad the, 23RD December 2020

Subject:

ADJUSTMENT OF EQUITY, INJECTED DURING JUNE 2013 OF RS. 342 BILLION FOR CLEARANCE OF CIRCULAR DEBT AGAINST NET OUTSTANDING AJK CLAIMS FOR THE PERIOD FROM 2007 TO JUNE 2019 AS DECIDED BY ECC IN CASE NO. ECC-243/20/2019 DATED 19.06.2019

I am directed to refer to the ECC of the Cabinet decision No. ECC 243/20/2019 dated June 19, 2019 and to convey approval of the Secretary Power Division for revised re-allocation of GoP equity as per following

			Rs In Thousands
	Previous Allocation	Allocation for	Re-allocation of GoP
DISCOs	of Rs. 308 Billion	AJK Adjustment	Equity with effect from June-30,2019
FESCO	19,415,216	-	15,193,754
GEPCO	15,923,907	8,506,991	12,461,562
HESCO	46,187,768		36,145,133
IESCO	19,651,788	43,582,382	15,378,888
LESCO	37,155,296		29,076,597
MEPCO	30,599,566	-1	23,946,283
PESCO	64,094,476	14,900,132	50,158,374
QESCO	44,468,132	-	34,799,398
SEPCO	30,599,851	-	23,946,506
	308,096,000	66,989,505	241,106,495

CPPA-G is authorized to issue necessary adjustment in this regard.

This issues with the approval of the Secretary Power Division.

(Syed Mateen Ahmed)
Section Office (Tariff)

No.PF.5(4)/2012-Vol.X Government of Pakistan Ministry of Energy (Power Division)

Islamabad, March 22, 2019.

The Chairman,
Board of Directors, PESCO,
Peshawar

Subject:

EQUITY INJECTION AGAINST PAYMENT OF MARK UP ETC. IN RESPECT OF STFFS OF PKR 7.487 BILLION, RS. 25 BILLION AND RS 30 BILLION BY MINISTRY OF FINANCE.

The Government of Pakistan has provided credit covers to the IPPs by issuing sovereign Guarantee to cover the non-payment of power purchase price by the DISCO's. The Government of Pakistan provide the financial assistance to DISCO's by paying the liability of the DISCO's towards IPP's. The mode adopted by Government of Pakistan includes the direct equity injection to DISCO's equivalent to the amount paid to the IPP's or arranging the loans from commercial banks swapping the DISCO's liability toward IPP's. The liability toward IPPs is subject to financial charge ranging from 3 to 6-month KIBOR plus 2% to 4.5%. Therefore, the loans arrangement does not involve any additional financial burden.

- 2. In case of the subject loans, the financial charge was decided to be paid by the Ministry of Finance and amount paid up till June 30, 2018 was Rs 9,347.649 Million. As per decision of the Ministry of Finance, since this amount has been paid on behalf of the DISCO's, therefore each DISCO is required to acknowledge the expense incurred and book the same as the equity. The share of PESCO has been allocated at Rs 2,094,239,584. The non-compliance of the Government of Pakistan decision has held the release of further financial assistance as the FA's Organization (Finance) Establishment Division is requiring the confirmation of DISCO's about booking of equity.
- 3. The amount stuck with Ministry of Finance has now jumped to Rs 10,820 Billion. Resultantly the liquidity position due to less remittances for DISCO's has further been weakened. The legitimate expense incurred by the shareholder has to be booked in the corporate entity as per decision of the majority shareholders. The Board of Director is competent to follow the direction of Ministry of Finance/Ministry of Energy as PESCO is the fully state-owned corporate entity.
- 4. In the light of above, you are requested to immediate convene the BOD meeting and approve the equity injection of Rs 2,094,239,584 and send a certificate so that the stuck amount of Rs 10.820 Billion may be got release from Ministry of Finance.

(Rao M. Rizwan Ahsan) Section Officer (PF) Tele:051-9209213

EDUCTY INJECTION AGAINST PAYMENT OF MARKUP IN RESPECT OF Rabbott THE OF PER LATER IS BUT A 30 BUT OF FIFL

Reference to meeting held by CFO CPPA-G with CFO's/FD's of GEPCO, IESCO, FISCO and MEPGO. The prevailing position is further clarified as under

1. TWOP has financed the shortfall of recovery from DISCOs by making payments to IPPs through banks' loans. The debt servicing of these loans is being recovered via F.C Surcharge except three syndicated form finance facilities (Rupees 7.487 Bn, 25 Bn and 30 Bn), whose mark-up and other servicing payments is the responsibility of GOP (Finance Division) till the imposition of FC surcharge as per ECC decisions (copy enclosed). These loans were arranged by the PHPL and paid to the CPFA for immediate disbursement to the power generators in even dates (details adacted as Annex-A) Since these loans were arranged on behalf of DISCOs, Finance Division directed that mark-up payments amounting to Rupees 9,347.699 Mn till 30 June 2018, shall be backed in DISCUs as GOF Equity, i.e. GOF, being shareholder of DISCO, has incurred the markup on behalf of DISCO and it must be considered as equity against such amount.

Boudas of Funds

res explained above that servicing of Mark Up in respect of the subject facilities was the responsibility of Finance Division as per BCC decision (Annex-B). Accordingly, an amount of Rs 9,457.699 Million has been released by Finance Division to PMPL for servicing the subject facilities directly. It is mentioned that these facilities were availed by PHPL at KIBOR-12% (With the option of 1% rebate in case of making payment with due date) to avoid late payment mark up in 191's ranging betyeen KIBOR + 2% to KIBOR + 4.5%. Resultantly the supplementary charges were reduced due to unis away. The shove-mentioned deby was arranged to pay the outstanding liabilities to Power Producers arisen due to lesser recovery from DISCOs. Hence, these loans are a awapped arrangement of the outstanding liabilities of FASCOs against energy payables. In case shen standow were not beld to HPs it will amact the supplementary charges.

Phone 72 Shahoon Pines, Mine Aren, Parishe Ring Road, infaminhad, Phone: USI-9213616 Fair 081. 3213617 Ten expension in

Central Power Purchasing Agency Guarantee Limited

A Company of Government of Pakisma

Allocation of the store of interest to DISCO.

- 3- The proportionate share each DISCO in the mark-up payments of Rs 9,348 Million is worked out based on receivable of each DISCO in books of accounts of CPPA as on 30 June 2018. The details of the working are attached as (Amer-C).
- We have already sent allocation of Rs 5,918 Million vide CPPA-G Letter No 25292-311/CFO/DGMF/(CA&T) B&R /Rec Dated 07-09-2018, Allocation of Rs 3,430 Million vide CPPA-G/DGM (CA&T) MF (B & R) 26492-02 Dated 17-Sep-2018 and The allocation of the actual payment of Rs. 9,347.699/- million till June 30th, 2018 to PHPL as referred vide its Letter No F.I (17) CF-1/2011-12/948 Dated 13-09-2018.
- 5- As desired, although not necessarily required in the presence of letter of Ministry of Finance, the Debit/Credit Settlement notes have attached herewith (Annex-D) showing the Debit for supplemental charges and credit for injection of Equity
- 6- DISCO's should approach NEPRA for inclusion of the said mark-up payments in its revenue requirements with reference to the GOF (Finance Division) directions.
- % Seel thee to communicate for any further queries.

MINUTES OF THE MEETING

Subject: OUTSTANDING DUES AND TARIFF ISSUES WITH AJ&K GOVERNMENT

ECC of the Cabinet in its meeting held on 17.03.2021, inter alia, decided to constitute a committee under the chairmanship of Dr. Ishrat Husain, Advisor to the Prime Minister on Institutional Reforms and Austerity to resolve the subject issue. The meeting of the committee was held on 24th March 2021 in the Committee Room of Ministry of Energy (Power Division) Islamabad. List of the participant is attached. Chief Secretary AJ&K participated in the meeting virtually/through Zoom platform.

- 2. Dr. Ishrat Husain, Advisor to the Prime Minister on Institutional Reforms and Austerity welcomed the participants. The meeting started with the recitation of holy Quran. The Secretary Power Division described each of the following outstanding matters requiring resolution for streamlining the financial issues in provision of electricity to AJ&K:
 - a. Settlement of outstanding dues of AJ&K against the DISCOs (IESCO, PESCO and GEPCO);
 - b. Application of Bulk Tariff for AJ&K;
 - c. Creation of DISCO in AJ&K;
 - d. Enhancement of Water Use Charges (WUC) for AJ&K from Rs. 0.15/kwh to Rs. 1.10/kwh;
 - e. Amendments in the Mangla Raising Dam project.
- The Secretary Power Division highlighted that the Government of AJ&K/ Electricity Department pays the Distribution Companies @ Rs. 2.59 /kWh, which results in per year deficit of around Rs. 38 billion. AJ&K Government however, charge their consumers at the rate notified by the GoP (Uniform /IESCO's notified tariff). Consequently, Total outstanding against the AJ&K till 31.12.2020 has reached Rs. 55.282 billion (Rs. 36.120 billion from 01.07.2019 to 30.06.2020 and Rs. 19.162 billion from 01.07.2020 to 31.12.2020). The outstanding amount will reach around Rs. 74 billion by 30.06.2021. On query of the Chair, the Chief Secretary endorsed the information provided by Secretary Power Division.
- 4. Regarding Water Use Charges (WUC), the Secretary, Ministry of Water Resources apprised that pursuant to the section 3(I) of the NEPRA Tariff Standard and Procedures Rules, WAPDA filed a tariff petition regarding Neelum Jhelum HPP in NEPRA including WUC amounting to Rs. 1:10/kwh. However, WAPDA's tariff petition filed for modification in WUC rate payable to GoAJ&K for generation of Mangla Power Station in compliance with the ECC of the Cabinet decision held in case No. ECC 76/11/2019 dated 20-03-2019, was rejected by NEPRA vide its determination dated 23.07.2020.
- 5. In response, the ADG NEPRA clarified that there were certain pre requisites and one of them was appropriate amendment in the base document i.e., "Mangla Dam Raising Project" enabling the Authority to take the decision. Once appropriate amendments in the base documents are made, the Authority will allow the enhancement of WUC to WAPDA. The ADG reconfirmed that NEPRA will have no further objection on tariff petition.

filed by Water Resources after amendments in the "base document". The Chair achieved the consider because of Water Resources to expedite the signing of amended Mangia Raising Project enabling WAPDA to take the matter further. It was also decided that the effectiveness of the agreement will be linked with the determination of WAPDA tariff by NEPRA including WUC for Mangla raising.

- 6. After detailed deliberations following decisions were taken by the Committee:
 - a) The Ministry of Water Resources will take up the revision of the Mangla Dam agreement with GoAJ&K for finalization/ signing at the earliest.
 - b) On the basis of revised Mangla dam agreement and Neelum Jheium hydropower project, WAPDA
 will submit a revised tariff petition to NEPRA. On basis of that NEPRA will determine new tariff for WAPDA hydel incorporating WUC at par with Net Hydel Profit for provinces.
 - c) The GoAJ&K will expedite the processing and finalize the pre-requisites for formation of its own Distribution Company. For time being, the Electricity Department AJ&K will perform functions of a distribution company and enter into a power purchase agreement with CPPA. However, the AJ&K DISCO will also have a future contingency, in which it can adopt competitive market model.
 - d) On the arrears of Government of AJ&K towards the DISCOs, a Committee headed by Additional Secretary (CF) Finance Division, Additional Secretary (II) Power Division and Secretary Finance Department of GoAJ&K will look at the liquidation of the arrears and ensure that the future payments shall be made regularly by the AJ&K and there will be no further outlays from the Federal Government or implications of Circular Debt. However, the AJ&K Distribution Company will be entitled for the TDS from the Federal Government on the same analogy as being adopted for the other DISCOs. The Committee will submit its recommendations to the ECC of the Cabinet for discussion/ consideration.
- 7. The meeting ended with a vote of thanks to and by the Chair.
